# When it comes to annuities, "one size does not fit all."

Since no two clients are alike and no two retirement goals are the same, Athene is committed to helping you match your clients with an annuity solution that will help them reach their own unique financial objectives.

An annuity can be a valuable addition to a client's overall portfolio. But it isn't right for everyone. Because it is necessary that your recommendations for the exchange of an annuity product be suitable for each individual client's circumstances, it is your duty to uncover to the best of your ability any relevant information pertaining to the sale.

Athene provides a **Disclosure and Comparison of Annuity Contracts** 

(Form 55445) to assist you with fact finding. This worksheet, available for download on <u>Athene Connect</u>, must be filled out completely and accompany all Athene annuity replacement applications.\*

This guide will take you step-by-step through the worksheet to help you and your client obtain the necessary information to compare all aspects of the existing annuity or life insurance policy to the proposed Athene annuity. This worksheet also ensures proper documentation for a suitable recommendation.

Client satisfaction is our priority.

Providing as much detailed information as possible will help make the best possible recommendation for your client and ultimately lead to suitable annuity sales and satisfied customers.

Please remember that it is your obligation to provide a signed and completed copy to each customer by the time of contract delivery.

\*Your organization may not use Athene suitability forms. Please check with your back office for guidelines.
