It's natural to want to protect what matters most to you. And not just for today, or until you're an empty nester. You need protection that you can put in place now and know it's there for the long-term. You need *protection that lasts*.

That's why we created Indexed Universal Life Express® (IUL Express.) It provides a permanent life insurance solution with a death benefit you can count on today, tomorrow and beyond.

IUL Express highlights:

- Potential to accumulate a cash value,¹ which can help extend the policy's death benefit or allow you to reduce - or even stop - future premium payments
- Comes with living benefit riders that allow you to access a portion of the death benefit while you are still alive if you become terminally, chronically or critically ill
- No health exams required (no samples to provide or needles to endure)

Nothing feels better than knowing that your loved ones are protected. As long as you're around, you can help them avoid the bumps and bruises that come with everyday life. With IUL Express, you can protect them after you're gone, too. That's *protection that lasts*.

¹The amount that may be available through loans or withdrawals, as defined in the contract.
