

HELP YOUR CLIENTS SAVE FOR THEIR LOVED ONES' COLLEGE EDUCATION WITH A LIFE INSURANCE POLICY THAT CAN PAY OUT EACH YEAR THE RECIPIENT IS IN COLLEGE.

With college costs continually rising, giving parents, grandparents and other family members a way to pay for their loved ones' college education can be daunting. Gerber Life makes it easier with the College Plan, an alternative to savings plans and bank CDs. It's a life insurance policy that provides your clients up to \$150,000 in financial support per policy with the opportunity to receive a guaranteed payout of the cash accumulation.¹

Unlike college investment plans, Gerber Life Insurance College Plan isn't tied to the stock market, so growth is guaranteed and there are no limitations to how the funds can be used.¹ Plus, because it is life insurance, your clients can be assured that as long as premiums are paid, their plan will be achieved in the event of their passing. Helping clients support their loved ones' dreams for tomorrow — it's a smart way to be the hero your clients depend on.

1. WHY SHOULD MY CLIENTS CONSIDER APPLYING FOR THE GERBER LIFE INSURANCE COLLEGE PLAN?

There are four key reasons your clients may choose to save for college with the College Plan.

1. It offers the opportunity for a guaranteed payout, either one time or for each college year.¹
2. Because it's an endowment policy, and unlike 529 Savings Plans, your clients don't have to worry about stock market fluctuations.
3. It provides a guaranteed return. At maturity, the full amount is guaranteed to be paid.¹
4. Death benefit protection is also included, ensuring the guaranteed accumulation amount will be paid as a death benefit in the event of the buyer's passing. This is an added benefit not found in 529 Plans, UGMA/UTMA accounts and bank CDs. It is particularly suitable for clients who are risk averse and want guarantees.

2. WHAT FACE AMOUNTS CAN MY CLIENTS PURCHASE?

Your clients can buy individual policy face amounts that range from \$10,000 to \$150,000. Maturities range from 10- to 20-year durations. They can buy up to five policies, as long as they don't exceed a combined total of \$500,000 per insured.

3. WHO CAN PURCHASE A GERBER LIFE INSURANCE COLLEGE PLAN?

If your clients are U.S. Citizens or permanent legal residents between the ages of 18 to 60 years old, they can purchase a policy.

¹ Policy will remain in force, premiums are guaranteed not to increase, and the death benefit and cash accumulation are guaranteed as long as payments are made on time and within the Grace Period specified in the policy. The cash accumulation at maturity as well as the death benefit will be reduced by any outstanding policy loans. The policy loan interest rate is 8%.

4. WILL PREMIUM PAYMENTS EVER INCREASE?

Your clients' premiums are guaranteed, which means they will never pay a penny more as long as all payments are made on time and within the Grace period specified in the policy.²

5. WHAT MAKES THE COLLEGE PLAN UNIQUE?

One of the most unique features of the Gerber Life Insurance College Plan are the guarantees. As long as premiums are paid, the lump sum amount payable at maturity is guaranteed.² In addition, your clients can purchase either one policy or up to four additional policies³ (one each consecutive year) not to exceed a total cumulative \$500,000 accumulation for all policies per insured. This layering method is an economical way to spread the cost over multiple years, and enables your clients to have a guaranteed payout each year to align when college expenses are due. There is also a death benefit which will pay the full face amount if the insured passes away before the policy matures.

6. DO THE FUNDS NEED TO BE USED FOR COLLEGE EXPENSES?

No. Unlike 529 Plans, the funds do not have to be used to pay for college expenses. The funds can be used for other needs.

7. HOW CAN MY CLIENTS PAY FOR THE COLLEGE PLAN?

Premiums can be paid annually, semi-annually, quarterly or monthly.

8. IS THERE STOCK MARKET RISK?

No. The College Plan is ideally suited to clients who do not want the risks associated with investing in the stock market and are looking for a guaranteed payout of the full face amount at maturity.²

9. WHAT ARE THE TAX IMPLICATIONS?

The College Plan will generate taxable income when the amount of growth in the accumulation, in any given year, is greater than the premiums paid. When this occurs, Gerber Life will issue a Form 1099 each year that there is taxable income. Once your clients apply, Gerber Life will send a detailed statement showing how the cash accumulation grows and potential taxable income.

In addition, the death benefit is federal income tax free.

10. IS A MEDICAL EXAM REQUIRED DUE TO THE LIFE INSURANCE COMPONENT?

In most cases, there are no medical exams; however, your clients will be required to complete a short one-page application.⁴

11. HOW LONG WILL IT TAKE FOR A DECISION TO BE MADE?

Decisions are made in a timely manner (typically within a few days). Our streamlined application makes the process smooth and easy.

² Policy will remain in force, premiums are guaranteed not to increase, and the death benefit and cash accumulation are guaranteed as long as payments are made on time and within the Grace Period specified in the policy. The cash accumulation at maturity as well as the death benefit will be reduced by any outstanding policy loans. The policy loan interest rate is 8%.

³ The additional Policy Rider ICC09 IE-AP entitles an individual to purchase four additional policies for a total of up to five policies. Your clients' premiums will stay the same for each new policy as long as they purchase one policy each consecutive year and the specifications stay the same as the originally issued policy.

⁴ A medical exam may be necessary for applicants age 51 and older who apply for more than \$100,000 of coverage.

12. HOW DOES THE FOUR-YEAR PLAN WORK?

The four-year plan allows clients to purchase policies that can be paid out each year the student is in college. The following example shows a 15-year maturity for each policy and a \$25,000 payout at the end of each term. The premium per policy remains the same⁵ but the total annual premium increases gradually each consecutive year as a policy is purchased. When the first policy matures at the end of the 15-year term, the guaranteed accumulation is paid out to align with the first year of college expenses.⁶ At this point, the total annual premium starts to decrease. After this, the remaining policies mature each consecutive year so that money is available to pay for the remaining years of college.
