There may be a cost to exercise this rider, depending on the policy value adjustments that occur when the insured is changed. Exercising this rider will create a taxable event to the policy owner if there has been a gain in the contract.

Level Premium Convertible Term — Provides additional term coverage on the primary insured, on the insured's spouse, children, parents, and/or business partners. Premiums are level and are guaranteed not to increase for the first five years. It also offers a 10-year conversion privilege to upgrade to cash value-building permanent insurance. Available for purchase.

Living Benefits — Allows a portion of the policy's eligible death benefit to be accessed should the insured be diagnosed with a terminal illness with a life expectancy of 12 months or less.⁸ This rider is included with your policy; however, there's a cost to exercise this rider.

Receipt of accelerated death benefits may effect eligibility for public assistance programs and may have income tax consequences. You should consult your tax advisor regarding your circumstances.
