

Make your money work for you with monthly interest income

One of the many benefits of owning a Platinum Assure Series Annuity is the option to take systematic monthly interest income. **This means that you will receive monthly checks for the current interest earned each month while your original premium remains intact.**

You can begin taking this income as early as after one month of owning the policy. Let's take a look at how this works for various single premium amounts, assuming interest income begins one month after your contract becomes effective. The actual monthly income received will vary based on the number of days in each month.
