Offering peace-of-mind for your financial future

We're here to help you plan.

Stability you can trust now, and into the future

In financial planning – as it is in life – **trust is earned.**

The best partners go out of their way to offer a steady, stable hand to help you weather life's storms. Time after time, they show up and prove that actions speak louder than words.

Offering you peace-of-mind

While economic and market volatility can be worrisome in your financial planning, North American can help your confidence in your financial future by:

- Leveraging our deeply rooted experience that spans 135+ years
- Adapting our products to withstand life's ever-changing seasons
- Providing stability to help you plan for those what-if moments

With our long history of honoring commitments to customers, partners, and communities, we're uniquely positioned to do what matters most – earn your trust.

Annuity

Protect and grow your retirement savings

A North American annuity is an insurance contract that represents a simple promise. For your premium and the time you leave it with us, we promise to offer growth potential and the option for guaranteed income.

Could an annuity help you reach your financial goals?

Confidence in your financial future

● **Protect your retirement savings**

Whether you're preparing for the unexpected or want to provide a legacy for your loved ones or a cause you believe in, annuities can help you stay in control of your finances through death benefit and health-related event features.

● **Balance your retirement plan**

Finding the right mix of growth potential and protection for your retirement assets can be a challenging balancing act. That's why fixed index annuities are designed with the potential to capture a portion of the market's upside, with guarantees that you'll experience no loss of premium due to market downturns.

● **Prepare for the unexpected**

Unforeseen circumstances don't have to derail your retirement plans. Annuities come equipped with liquidity features that give you access to some of your retirement savings, offering you peace-of-mind no matter what life brings.

● **Deliver lifetime income**

Running out of money in retirement is a concern for many. Annuities can create a guaranteed lifetime income stream with flexible payout options (some with opportunities to increase payments along the way) – allowing you to help safeguard your retirement lifestyle.

Life Insurance

More than you might expect

You know that life insurance can provide death benefit protection to your loved ones when it's needed most. But did you know it can be used for so much more? Life insurance can play a key role in your overall financial plan and help you prepare for some of life's most common financial risks.

Protect your future

● **Protect your family's income and leave a legacy**

Help ensure your family can continue their current lifestyle in the event you or your spouse were to die prematurely. If you both go on living as expected, you can use life insurance for death benefit protection and help to grow an inheritance to leave to your beneficiaries.

● **Grow retirement income**

You're closing the gap to retirement age—but your retirement account isn't quite as close. In addition to death benefit protection, life insurance can help you build and supplement your retirement income for use in your golden years.

● **Prepare for future medical expenses**

If you are diagnosed with a qualifying illness in the future, you can access a portion of your policy's death benefit while living through accelerated death benefits, which can help pay for medical bills, your mortgage, or anything else you choose.¹

● **Prepare for life's uncertainties**

Is your emergency funding reaching its full potential? A life insurance policy that provides a death benefit and offers cash value growth can help you be better prepared for whatever life throws at you.

A history of strength and stability

Our continued and consistent financial strength is a result of our conservative and disciplined investment strategy, our private ownership structure, and doing what's right for our distribution partners and policyowners. While we celebrated our 134th year of business in 2021 and are eagerly looking ahead to the future, here is a glance at the success we enjoyed in asset quality for the year 2021.

Sammons Financial® is the marketing name for Sammons® Financial Group, Inc.'s member companies, including North American Company for Life and Health Insurance®. Annuities and life insurance are issued by, and product guarantees are solely the responsibility of, North American Company for Life and Health Insurance.

The term financial professional is not intended to imply engagement in an advisory business in which compensation is not related to sales. Financial professionals that are insurance licensed will be paid a commission on the sale of an insurance product.

Texas Residents: Receipt of acceleration-of-life-insurance benefits may affect your, your spouse's or your family's eligibility for public assistance programs such as medical assistance (Medicaid), Aid to Families with Dependent Children (AFDC), supplementary social security income (SSI), and drug assistance programs. You are advised to consult with a qualified tax advisor and with social service agencies concerning how receipt of such a payment will affect your, your spouse's and your family's eligibility for public assistance.

Fixed index annuities are not a direct investment in the stock market. They are long term insurance products with guarantees backed by the issuing company. They provide the potential for interest to be credited based in part on the performance of specific indices, without the risk of loss of premium due to market downturns or fluctuation. Although fixed index annuities guarantee no loss of premium due to market downturns, deductions from the accumulation value for additional optional benefit riders or strategy fees associated with allocations to enhanced crediting methods could exceed interest credited to the accumulation value, which would result in loss of premium. They may not be appropriate for all clients. Interest credits to a fixed index annuity will not mirror the actual performance of the relevant index.
