How does Asset Care work?

More than just nursing home care

Long-term care (LTC) is intended to provide support to those who need assistance due to severe cognitive impairment, or help completing Activities of Daily Living (ADLs) like eating or bathing. Our LTC solutions can help you pay for almost any level of care, ranging from local care during the day to more specialized support:

- Home health care
- Assisted living
- Nursing home
- Adult day care
- Hospice

Note: Benefits will be paid monthly up to the monthly benefit limit based on the actual number of days the insured is confined or receiving qualified long-term care services.

Benefits beyond traditional LTC

This suite of whole life-based products can help you retain your independence, preserve your dignity and leave a legacy for your loved ones by offering:

- Tax-free LTC benefits
- A death benefit

Benefit triggers*

You cannot perform at least two of six Activities of Daily Living (ADLs), which include bathing, maintaining continence, dressing yourself, eating/feeding yourself, toileting (including getting on and off a toilet) and transferring (for example, from a bed to a chair).

You require care as a result of a severe cognitive impairment (such as Alzheimer's disease).

*To be eligible for benefits, the insured must be a chronically ill individual with qualified long-term care services provided pursuant to a plan of care prescribed by a licensed health care practitioner.

Elimination Period

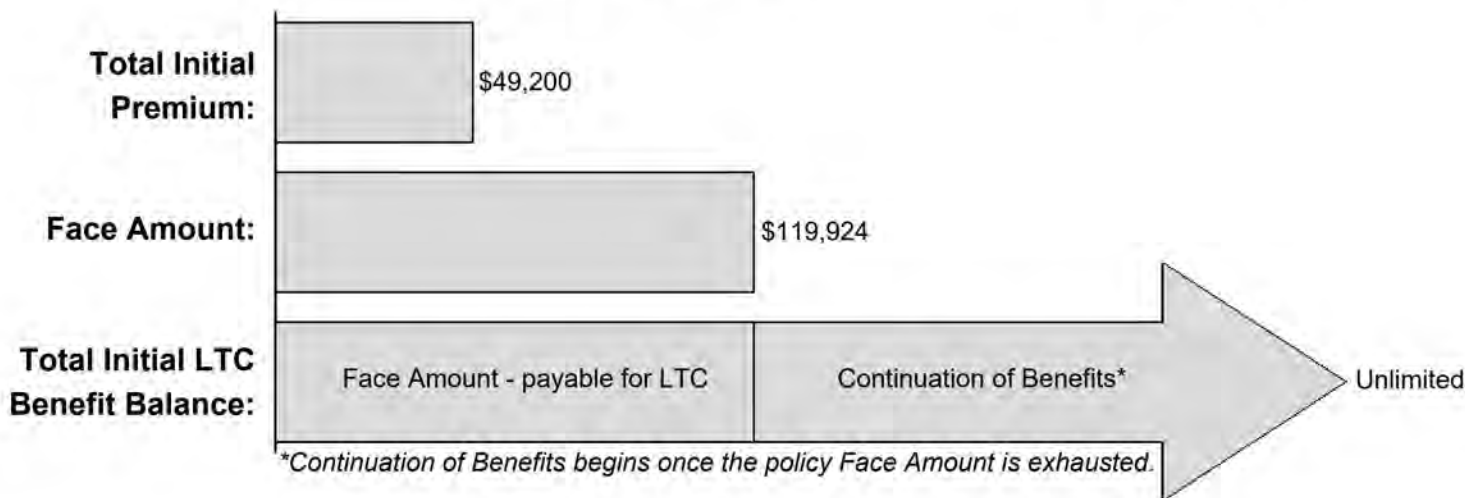

90 days is the elimination period to access LTC benefits once you have a benefit trigger. However, Home Health Care is available after 0 days.

Note: Not all features and benefits of the policy are shown here. For additional details of all features and benefits, please see the policy.
