<sup>5</sup> New York Life 2022 Dividend Announcement. Dividends are not guaranteed and are not paid on universal life and variable universal life products issued by New York Life Insurance and Annuity Corporation.

<sup>6</sup> In California, up to nine annual premium payments can be prepaid. Future premiums deposited into the PDA account are discounted, based on the credited interest rate. The PDA provides an interest rate on funds deposited in the account. This crediting rate is based on the New York Life ordinary life portfolio new money rate and is set periodically. This interest rate on the PDA is locked in for the life of the agreement when you make a deposit into the account. Interest earned on the PDA will be taxable and, subject to applicable requirements, will be reported to the client and the IRS on a Form 1099-INT. \$500k limit for all policies issued in Texas.

<sup>7</sup> Source-individual third-party ratings reports as of 10/18/22.

<sup>8</sup> The Comdex is not a rating, but a composite of all ratings. It ranks companies on a scale of 1 to 100, showing you, at-a-glance, where a company is ranked among all rated companies. The Comdex ranking is not equated to a grading system such as 90% equals an A or 80% equals a B. The Comdex ranking is a relative number that can change based on the following factors:

If a company's ratings from one of the rating services, A.M. Best, Standard and Poor's, Moody's, or Fitch, changes

If one or more companies are added or removed from the list of insurers rated by the above rating services

If another company with similar ratings experiences a rating change, the percentiles or Comdex ranking will adjust For example, if 1,000 companies are rated, a company that is rated in the top 100 of these companies and meets the criteria for Comdex will have a Comdex ranking of approximately 90 or above.

<sup>9</sup> In South Carolina and Tennessee, the variable loan interest rate is set no more than once every 12 months; Arkansas has a fixed loan interest rate of 8.00%.

<sup>10</sup> Expedited underwriting requires an application, self-completion of part 2 of the application/Teleapp, and search of Prescription Database, Medical Information Bureau, and Motor Vehicle records. Policies with total annual premiums exceeding \$150,000 for adults, or \$100,000 for issue ages 0–17, require traditional underwriting, which may include medical and lab tests.

<sup>11</sup> Autobind retention limits are \$25M and \$12.5M for ages 66-75 and 76-79, respectively.
