

Is One of Your Most Important Assets Protected?

You probably have insurance to help protect your home or your car. Do you have coverage to help protect what may be your most important asset, your ability to earn an income?

Your income helps you meet financial obligations. But if you became sick or injured and were unable to work, what kind of financial impact would the loss of your income have on your family?

With a disability income insurance policy from Mutual of Omaha Insurance Company, you can receive benefits to help replace a portion of your income. It's financial protection that helps you focus more on your recovery and less on how you'll cover expenses.

Other Solutions to Help Protect Your Assets

With disability income insurance protection, you're less likely to rely on your savings or dip into a retirement account to help make ends meet. There are two other financial solutions that complement disability income insurance which can also help protect assets you've worked hard to build:

Life insurance - if something happens to you, the benefits from a life insurance policy can be used to help pay off your mortgage, send your kids or grandkids to college, cover final expenses, and continue your income

Long-term care insurance - if you need home health care or nursing home services, benefits from a long-term care insurance policy can help pay for the care you need without depleting your assets

Extra Value with Discounts

You may be eligible to receive a 10% discount if you're issued an individual disability policy within 90 days of being issued an eligible fully underwritten life insurance or a long-term care insurance policy.
