PruLife® Founders Plus Indexed UL

Overview	<p>PruLife® Founders Plus Indexed UL (Founders Plus) is a flexible premium indexed universal life insurance product designed to give clients cost-effective death benefit protection and the potential for cash value accumulation through three interest-crediting options: the Fixed Account; the S&P 500® Indexed Account; and the Goldman Sachs Voyager Indexed Account. Clients may also choose to allocate to a combination of all three for a blended approach. Founders Plus also provides an extended No-Lapse Guarantee. In some common premium-payment scenarios, the No-Lapse Guarantee may go to age 90 or beyond.</p> <p>Additionally, Founders Plus can be enhanced with Prudential's optional BenefitAccess Rider, which can accelerate the policy's death benefit to clients who become chronically or terminally ill and meet the other terms of the rider. BenefitAccess is available for an additional cost, and additional underwriting requirements apply. Please refer to the BenefitAccess Rider Fast Facts for more information.</p> <p><i>Founders Plus is not a variable contract or an investment contract. Although the policy will be affected by changes in the S&P 500® Index and/or the Goldman Sachs Voyager Index, the policy does not invest directly in any stock or equity investments.</i></p>

Auto Issue/ Jumbo Limits¹	<p>\$65 million. "Auto-issue" refers to the maximum face amount that can be applied for on any one policy. "Jumbo" refers to the maximum total line that can be considered without review by Prudential's reinsurance partners (applied for + inforce coverage). Both limits can be reduced by amounts in force and applied for and can also be reduced by factors such as age, ratings, residence, travel, and occupation. Higher capacity amounts will be considered on a case-by-case basis and may be subject to the availability of reinsurance.</p>

Minimum Initial Premium	Based on the first month's No-Lapse Guarantee charge.												
Rolling Target Premium Commissions	During the first 24 months, first year commissions will be paid until the Commission Target Premium is reached.												
No-Lapse Guarantee	The product utilizes a shadow-based No-Lapse Guarantee for all years. A positive No-Lapse Guarantee Value provides a guarantee against lapse, assuming there is no excess contract debt. The length of this guarantee is "dialable" based on the desired level of funding and may be used to guarantee lifetime coverage. Generally, the more premiums paid, the longer the guarantee will last. However, any alteration of the contract or premium payments has the potential to shorten the No-Lapse Guarantee period (e.g., timing and amount of premium payments, face amount changes, policy loans or withdrawals, death benefit type changes). If the policy lapses, the No-Lapse Guarantee can be reinstated.												
1st Year Flexibility	<p>Important information regarding premiums received in the first policy year.</p> <ul style="list-style-type: none"> ▶ 1st Year Flexibility: The No-Lapse Guarantee (Shadow Account) structure allows for increased flexibility around the timing of premium payments received in the first policy year. As long as premiums illustrated within the first year are actually received within that year, the No-Lapse Guarantee period will not be reduced. This is very beneficial for 1035 exchanges and backdated policies where there is uncertainty regarding the timing of premium payments. This flexibility applies only during the first policy year. In subsequent years (year 2+), premiums must be received within the month in which they are due in order to maintain the No-Lapse Guarantee period. ▶ Sufficient premiums are still required throughout year 1 to maintain the No-Lapse Guarantee and prevent the policy from lapsing. ▶ Late premium payments in any year will always impact policy cash values. 												
Coverage Beyond Age 121⁵	<p>Basic Insurance Amount coverage continues beyond the insured's attained age 121, provided the policy is in effect at the time (subject to state approval).</p> <p>If coverage is extended beyond age 121, the policy will continue to be credited with interest. However, premiums will no longer be accepted and charges, other than interest on any outstanding policy loans, will no longer be deducted.</p>												

³ Decreasing the face amount or changing the death benefit option could cause the policy to become a Modified Endowment Contract (MEC).

⁴ Consideration will be given for face amounts as low as \$200,000. You should submit an inquiry to Underwriting before submitting an insurance request on an individual over age 80 for guidance on whether the risk may be considered. If the case can be submitted, requests below \$250,000 must be submitted using the paper application.

⁵ The contract may not qualify as life insurance under federal tax law after the insured has attained age 100 and may be subject to adverse tax consequences. A tax advisor should be consulted before choosing to continue the contract after the insured reaches age 100.

Interest Crediting Account Options

Overview

- ▶ Choice of a Fixed Account, S&P 500® Indexed Account, and/or Goldman Sachs Voyager Indexed Account.
- ▶ Client may also choose to allocate among the three account options for a blended approach.
- ▶ Account option(s) selected determines interest-crediting methodology applied to Contract Fund.

Fixed Account

- ▶ The Fixed Account is the account to which all premiums (net of premium-based charges) are initially allocated.
- ▶ Amounts allocated to the Fixed Account earn interest credits daily, at a rate guaranteed to be no less than 1.00% annually.

S&P 500® Indexed Account

- ▶ The S&P 500® Indexed Account offers interest credits based on the performance of the S&P 500® Index (excluding dividends), using an annual point-to-point calculation method, participation rate, cap, and floor.

Goldman Sachs Voyager Indexed Account

- ▶ The Goldman Sachs Voyager Indexed Account offers interest credits based on the performance of the Goldman Sachs Voyager Index, using an annual point-to-point calculation method, participation rate, and floor. This account option does not use a cap.
- ▶ In addition to indexed interest, the Goldman Sachs Voyager account includes a fixed interest rate component, the Daily Interest Advantage, that credits interest not linked to an underlying index. The Daily Interest Advantage credits daily at a declared interest rate.

Things to consider for both Indexed Accounts

- ▶ When a client allocates to an indexed account, values from the Fixed Account are transferred to an indexed account segment on the next available Transfer Date (transfers occur on the 15th of each month).
- ▶ Index Interest, if any, is credited at segment maturity based on the Average Daily Segment Value, the change in the underlying index over the segment duration, and the segment's Participation Rate, Index Growth Cap (where applicable), and Index Growth Floor.

Designated Transfers

- ▶ Policyowners can designate the amount that will be transferred from the Fixed Account to an indexed account on a monthly basis, creating a unique Indexed Account segment with each transfer.
- ▶ Policyowners can use this, for example, to create multiple Indexed Account segments with each premium.
- ▶ If the Fixed Account balance is less than the designated amount, the full remaining balance will be transferred.

One-Time Requested Transfer

- ▶ Clients may request a transfer to either of the indexed accounts. This transfer will be processed on the next available transfer date. If less than the requested transfer amount is available in the Fixed Account, the entire available amount will be transferred.

PruLife® Founders Plus Indexed UL

<p>Changing Allocation Instructions After Issue</p>	<p>Policyowners can change their allocation instructions after their policy has been issued, by sending a request to Prudential with change instructions. New instructions will take effect on the next available transfer date. Separate allocation instructions may be given for each of the events described below. When more than one of the following events takes place on the same day, the instructions will be processed in the order shown:</p> <ol style="list-style-type: none"> 1. Maturing indexed account segment allocation instructions apply to money moved into the Fixed Account as a result of maturing indexed account segments. 2. Requested transfer allocation instructions apply to any single transfer that is requested. 3. Designated Transfer allocation instructions apply to any designated transfers requested to take place on an ongoing monthly basis, for the number of months requested. 4. Payment allocation instructions will apply to amounts received in the policy from net premium payments, reinstatement payments, loan repayments, and loan interest credits received since the last transfer date. 												
<p>Alternate Contract Fund</p>	<p>The Alternate Contract Fund (ACF) is an alternative way to calculate the insurance benefit and the cash surrender value. Regardless of Indexed Account performance, the ACF will guarantee a cumulative return of 1% annually on net premiums, deducting the same withdrawals and charges as the Contract Fund. When the ACF is more than the Contract Fund, the ACF will be used in its place for most policy provisions, including the calculation of surrender value, available loan amount, amount at risk, and death benefits. The ACF also provides protection against lapse. If the ACF, net of any surrender charge and outstanding loans, is sufficient to cover monthly charges as they come due, the policy will not enter default. There is no guarantee that the ACF will be a positive value, as charges and other deductions can deplete it.</p>

⁶ Life insurance cash values are accessed through loans and withdrawals, which will reduce cash values and death benefits and may have tax consequences. The Internal Revenue Service may take the position that the preferred loan should be treated as a distribution for tax purposes because of the relatively low differential between the loan interest rate and the contract's crediting rate. Distributions are subject to income tax. Were the Internal Revenue Service to take this position, Pruco Life would take reasonable steps to attempt to avoid this result, including modifying the contract's loan provisions, but cannot guarantee that such efforts would be successful.

⁷ All riders, supplemental benefits, and product features may not be available in all states. Additional limitations may also apply based on age and underwriting.

- BenefitAccess Rider may not be added to the same policy as Waiver of Monthly Deductions and Living Needs BenefitSM.
- Overloan Protection may not be added to the same policy as Accidental Death Benefit.

⁸ The BenefitAccess Rider is an optional rider that accelerates the life insurance death benefit when the insured is terminally ill or is chronically ill and otherwise meets the terms of the rider. It is not Long-Term Care (LTC) insurance. Benefits received under the rider will reduce and may deplete the death benefit. Electing the BenefitAccess Rider results in an additional charge and underwriting requirements. Some benefit payments may be subject to a fee. Other terms and conditions apply and can vary by state. Clients should consult their tax and legal advisors.

⁹ The Living Needs BenefitSM is an accelerated death benefit and is not a health, nursing home, or long-term care insurance benefit and is not designed to eliminate the need for insurance of these types. There is no charge for this rider but, when a claim is paid under this rider, the death benefit is reduced for early payment, and a \$150 processing fee (\$100 in Florida) is deducted. If more than one policy is used for the claim, each policy will have a processing fee of up to \$150 deducted (\$100 in Florida). Portions of the Living Needs BenefitSM payment may be taxable, and receiving an accelerated death benefit may affect eligibility for public assistance programs. The federal income tax treatment of payments made under this rider depends upon whether the insured is considered "terminally ill" or "chronically ill" and, if the policy is business related, whether the insured is receiving the benefits. We suggest that clients seek assistance from a personal tax advisor regarding the implications of receiving Living Needs BenefitSM payments. This rider is not available in Minnesota to new purchasers over age 65 until the policy has been in force for one year, and the nursing home option is not available in California, Connecticut, Florida, Massachusetts, New York, or the District of Columbia. This rider is not available in Washington state. In Oregon, term policies must include the waiver of premium benefit to be eligible for this rider.

S&P 500® index values are exclusive of dividends.

The potential to build cash value in the S&P 500® Indexed Account is based in part on the performance of the S&P 500® Index (using an Index Growth Cap and floor) on an annual point-to-point basis based on a 100% participation rate (subject to change). Money that is placed in the S&P 500® Indexed Account is not a direct investment in the S&P 500® Index. Founders Plus is not a variable contract or an investment contract.

The Index Growth Cap is generally stated as a percentage, which is the maximum rate of index interest that will be credited at the end of the one-year S&P 500® Indexed Account segment, regardless of changes to the designated index. The Index Growth Cap is declared for the S&P 500® Indexed Account segment in advance of the start date. The Index Growth Cap may be raised or lowered at our discretion before the segment is created, but will not be lower than the guaranteed minimum Index Growth Cap stated in the policy (3% in all states). Once the S&P 500® Indexed Account segment is created, its Index Growth Cap will not change. Changes to the Index Growth Cap could result in different values than shown here. Changes are not tied to the performance of the underlying index and may be based on interest rates, market volatility, and other factors. Index Growth Caps and Floors may be different in selected states.
