MARKETING ADDVANTAGE®

There comes a time in most people's lives to seek financial protection. Whether a client is recently married, takes on a mortgage, or starts a family, a need exists to help cover expenses or replace income due to loss of life. A simple and economical solution is ADDvantage term life insurance from North American.

ADDvantage offers five underwriting classifications that provide economical rates for clients who meet reasonable underwriting requirements. With marketable features and competitive rates, ADDvantage can offer your clients affordable protection.

Beyond Term Life Insurance

ADDvantage offers several marketable benefits that make it one of the leading term products in the industry.

- **Fully convertible:** Allows clients to convert their term insurance to permanent universal life insurance coverage without having to go through underwriting. (See page five for details.)
- **Custom options:** Helps your clients meet their specific needs with available riders and endorsements.
- **Comprehensive coverage:** Offers your clients a choice of a level premium period of 10, 15, 20, or 30 years.

North American guarantees the current premiums for the specified number of years (10, 15, 20, or 30), so your clients' rates won't increase during the guarantee period. If a client decides to continue coverage after the guarantee period, his or her premiums will increase annually, but will not exceed the guaranteed annual renewal premiums shown on the schedule of current and guaranteed annual premiums for the base policy.

With ADDvantage's conversion feature, riders and endorsements, and comprehensive coverage, it offers your clients financial protection along with flexibility to meet their specific needs.

SimpleSubmit® app

ADDvantage can be submitted through an online electronic application. Powered by iPipeline's iGO e-App¹, North American's SimpleSubmit electronic application eliminates the paperwork. If you are working on a tablet, you can even collect a finger signature. The simple and convenient process allows North American to begin the underwriting process sooner, so a policy can be issued more quickly.

WriteAway®

Available on ADDvantage, WriteAway is an efficient underwriting process that couples personal health and history questions with publicly available data to help eliminate labs and paramedical exams. WriteAway is designed for your healthiest clients and uses the same pricing as traditional underwriting with no additional policy fee. Clients who are eligible for a faster underwriting decision include those who are ages 18-50 with up to \$2,000,000 of face amount, and ages 51-60 with up to \$1,000,000 of face amount, and don't have any major medical conditions.

Accelerated death benefit endorsements for term life for critical, chronic, or terminal illness

ADDvantage term offers a variety of benefits and options to provide additional value and flexibility for your clients. These benefits and options may vary by state availability.

Refer to the accelerated death benefit endorsements for term life marketing guide for specifics.

Critical illness

This benefit allows the policyowner to accelerate a portion of the face amount after being diagnosed as critically ill based on the insured having a specified medical condition. Such conditions that may qualify for the critical illness benefit include heart attack, different types of cancer, stroke, major organ transplant, and kidney failure. For complete definitions, please refer to the accelerated death benefit endorsement marketing guides at northamericancompany.com. To qualify for the accelerated death benefit endorsement for critical illness, the following criteria must be met: 1) maximum issue age is 75 or less, 2) insured is rated at table 2 or less, 3) does not have a medical flat extra.

Please keep in mind that the policyowner must file the claim within 12 months of a qualifying event. The maximum amount of the face amount that may be accelerated is the lesser of 90% of the face amount at the time of each election, or \$1 million. The minimum amount that may be accelerated is the lesser of 10% of the face amount on the election date, or \$100,000.

NOTE: The critical illness benefit on ADDvantage is not available in California.

Chronic illness

This benefit allows the policyowner to accelerate a portion of the face amount after the insured has been certified as chronically ill within the last 12 months. To qualify for the accelerated death benefit for chronic illness, the following criteria must be met: 1) maximum issue age is 80 or less, 2) insured is rated at table 4 or less, 3) does not have a medical flat extra.

One election is available every 12 months. The maximum amount that may be accelerated per election is the lesser of 24% of the face amount or \$480,000. The minimum amount that may be accelerated per election, except the final election, is 5% of the face amount on the initial election date or \$50,000, whichever is less.

The face amount on the initial election date is used to determine the maximum accelerated death benefit and the residual death benefit. The residual death benefit is the greater of 5% of the policy face amount on the initial election date or \$10,000, if greater. The residual death benefit only applies to accelerated death benefits for chronic illness.

Terminal illness

This benefit allows the policyowner to accelerate a portion of the face amount if the insured is certified as terminally ill with a life span of 24 months (12 months in Florida) or less. The minimum accelerated amount is 10% of the policy's face amount on the election date or \$100,000, whichever is less. The maximum accelerated amount is 90% of the face amount or \$1 million, whichever is less. Only one election can be made for terminal illness. Refer to the accelerated death benefit endorsements for term life marketing guide for specifics.

Coordination of accelerated death benefits

The company will not simultaneously accelerate any portion of the policy's face amount for more than one qualifying event for critical, chronic, or terminal illness under the endorsement. The policyowner must discontinue any existing accelerated death benefit payments in order to elect another accelerated death benefit under the endorsement.

Waiver of term premium for disability rider

Available at policy issue, this rider allows the premium payments to be waived, including rider premiums, if the insured is totally disabled while the rider is in effect.

If total disability begins before Policy Age 60, we will waive the payment of each premium that becomes due after 180 consecutive days of total disability while the insured continues to be totally disabled.

- The benefit does not become effective until the insured has been totally disabled for 180 consecutive days.
- For total disability occurring before age 60, premiums will be waived as they become due.
- For total disability occurring on or after age 60, we will waive the payment of each premium that becomes due after 180 consecutive days of Total Disability while the Insured continues to be Totally disabled for the longer of (a) or (b), where:
(a) Is the period of time prior to the Policy anniversary on which the Insured reaches Policy Age 65.
(b) Is a period of two years.

- Total disability begins after the effective date of the rider.
- If the insured is disabled on the conversion date, no disability endorsement or rider will be included in the new policy, and no benefits will be paid on the new policy after the conversion date.
- No premiums will be waived for disabilities beginning on or after the Termination of this Rider.

This rider is subject to the following:

- Issue ages: 18–59, maximum of table 4 rating
- Expiry age: 65
- Certain exclusions and limitations apply. Refer to the Riders and Options guide for more information.
