Compare the options within the Living Access Benefits Suite

The Nationwide® Living Access Benefits allow policyowners to access a portion of their policy’s death benefit when the insured has a qualifying chronic illness, critical illness or terminal illness. These policy features are available through riders that are automatically included in a policy when certain conditions are met. There is no premium or charge for these features unless a benefit is requested and paid.

The table below summarizes these features and provides a side-by-side comparison, including which products offer the features and what the requirements are (minimum/maximum age, underwriting stipulations, etc.).

FOR FINANCIAL PROFESSIONAL USE — NOT FOR DISTRIBUTION TO THE PUBLIC

This material is not a recommendation to buy or sell a financial product or to adopt an investment strategy. Investors should discuss their specific situation with their financial professional.

Keep in mind that, as an acceleration of the death benefit, exercising the Chronic Illness Rider, the Critical Illness Rider or the Terminal Illness Rider payout will reduce both the death benefit and cash value by an amount greater than one dollar for every dollar paid. Make sure that life insurance needs will still be met, even if the rider pays out in full. Though riders that customize a policy to fit individual needs usually carry an additional charge, neither the Chronic Illness Rider, the Critical Illness Rider nor the Terminal Illness Rider has an initial cost or upfront monthly charge when any is included in the policy; however, a cost is incurred if and when the rider is exercised, and policy cash values, death benefits and other policy values are reduced. A life insurance purchase should be based on the life policy and not solely on riders or features.

The chronic illness, critical illness or terminal illness benefit paid will be reduced to pay due and unpaid premium or charges. Additionally, a pro rata portion of the payment will be applied as a policy loan payment if there is any outstanding indebtedness.

Neither Nationwide nor its associates provide tax or legal advice. Benefits may be taxable under certain circumstances. Clients should consult with their tax and legal advisors about their specific situation.

When choosing a product, make sure that life insurance needs are met. Because personal situations may change (e.g., marriage, birth of a child or job promotion), so can life insurance needs. Care should be taken to ensure that these strategies and products are suitable. Associated costs as well as personal and financial objectives, time horizons and risk tolerance should all be weighed before purchasing a product. Life insurance has fees and charges associated with it that include costs of insurance, which vary based on characteristics of the insured such as sex, health, age and tobacco use; and additional charges for riders that customize a policy to fit individual needs. All guarantees and benefits of the insurance policy are backed by the issuing insurance company. Policy guarantees and benefits are not backed by the broker/dealer and/or insurance agency selling the policy, nor by any of their affiliates, and none of them makes any representations or guarantees regarding the claims-paying ability of the issuing insurance company.

Products are issued by Nationwide Life Insurance Company or Nationwide Life and Annuity Insurance Company, Columbus, Ohio. The general distributor for variable products is Nationwide Investment Services Corporation, member FINRA, Columbus, Ohio.
