Guaranteed Coverage Period

For the first 10 years, the policy will not lapse if all premiums are paid as scheduled. Taking policy loans or withdrawals can cause the policy to lapse unless additional payments are made. After the 10-year guarantee period, the built-in no lapse guarantee account (a reference only account) keeps the guaranteed death benefit in place. If the no lapse guarantee account value is positive, the policy will not lapse, even if the cash surrender value of the policy falls to zero. Your policy can still lapse due to loans and withdrawals, but you can make additional premium payments to keep the policy in force.

1) An accelerated benefit payment will be less than the death benefit because it is reduced by an actuarial discount and an administrative fee of up to \$500. The amount of the actuarial discount is primarily dependent on American National's determination of the insured's life expectancy at the time of election. 2) Guarantee is subject to premium payment requirements. Critical Illness is not available in New York. Chronic Illness is not available on permanent products with term riders in California.
