## MARKET DESCRIPTION

The Heritage policy is appropriate when a permanent policy is desired and cash-value accumulation is less important than death-benefit protection. This includes estate planning situations where insurance will be placed in an irrevocable life insurance trust, buy-sell agreements, or basic family coverage needs.

For example, many people have a need for a low premium, permanent insurance product that will serve as an alternative to term insurance and help provide protection for their family's lifestyle.

## Heritage 2022 Advantages

Using the Heritage policy as the financial tool for this protection has the following advantages:

- Guaranteed premium – the premium will not increase.
- Guaranteed cash value – annual growth in cash value.
- Potential for additional cash value if optional dividend-paying paid-up additions riders are added to the policy.<sup>6</sup>
- Cash values that may be accessed through policy loans or withdrawals.
- Death benefit will not lapse as long as the premium is paid and policy loans do not exceed cash value.
- Death benefit is generally income tax free to beneficiaries.
- Access to living benefits through the Accelerated Death Benefit Plus Rider at no additional premium.<sup>7</sup>

<sup>6</sup> Dividends are not guaranteed and may be higher or lower than current projections.

<sup>7</sup> This rider is added at no additional premium; however, we may charge a fee of up to \$250 for an advance payment. An advance is treated as a lien secured by the death benefit of the policy. The advance will accrue interest each year. The rate of interest will depend on the cash value of the policy and may vary. The lien may be increased if necessary to keep the policy in effect. Rider provisions, availability, definitions and benefits vary by state.

## Example

A woman, age 40 and Preferred Class No Tobacco, can afford to spend \$10,000 per year on a whole life insurance policy. She chooses Heritage and decides to split the premium equally between the base insurance policy and the Fixed Premium Paid-Up Additions rider (FPUA 2022) to enhance the cash value.

Although Heritage is not eligible to receive dividends, the FPUA rider offers dividends, if declared. If she continues the policy until she turns 70, she would have \$462,922 in non-guaranteed cash value to help supplement her retirement or assist her future grandchildren with college tuition.

Additionally, she can continue to fund the \$5,000 premium into the FPUA rider until the rider expires at age 95. This gives her added flexibility and the potential to further increase her cash value and death benefit later in life.

### HERITAGE 2022 • AGE 70

Guaranteed Cash Value	\$402,289
Non-Guaranteed Cash Value	\$462,922
Guaranteed Death Benefit	\$867,579
Non-Guaranteed Death Benefit	\$977,550

All non-guaranteed policy projections in this example are based upon current assumptions which are not guaranteed. Actual results may be more or less favorable. Based on Preferred No Tobacco rating for 40-year-old female, Ohio. Values as of 10/01/2023.

## Life insurance products are not bank products, are not a deposit, are not insured by the FDIC, or any other federal entity, have no bank guarantee and may lose value.

Payment of any death benefit is subject to exclusions and limitations in the policy, and any applicable riders, including without limitations: payment of the required premium, suicide exclusion, contestable provisions and existing loans.

Loans will accrue interest. Loans, withdrawals and advances will reduce the death benefit and cash surrender value and may cause the policy to lapse if not repaid. The policy may be issued as a Modified Endowment Contract for tax purposes. If it is, then taking a loan, making a withdrawal, or surrendering the policy could result in a taxable event. Have your clients consult an attorney or tax advisor regarding their specific legal or tax situation.
