EZ Underwriting Program

National Life Group is introducing a new underwriting program for our FlexLife product. The EZ Underwriting Program!

Every applicant between ages 18-50 up to \$3,000,000, between ages 51-60 up to \$1,000,000 and everyone between ages 61-65 up to \$250,000 has the opportunity to have their case issued without having to submit an exam or blood and urine. Underwriting will review the case when submitted and if the applicant meets certain parameters we can issue the case immediately without the need for exams or fluids.

All cases still undergo underwriting but with the use of new underwriting tools we will often be able to make decisions without invasive underwriting requirements such as exams or drawing blood.

Underwriting reserves the right to request any underwriting requirements deemed necessary to assess the risk, this would include paramedical exams, blood and urine, ECGs, and APS reports.

Underwriting Parameters and Requirements

- Age 18-50: up to \$3,000,000
- Age 61-65: up to \$250,000 Ages 51-60: up to \$1,000,000
- Application
- MIB
- Rx
- Risk Classifier
- Instant ID

1. The use of cash surrender value life insurance to provide a tax-free resource for retirement assumes that there is first a need for the death benefit protection. Policy loans and withdrawals reduce the policy's cash surrender value and death benefit and may result in a taxable event. Withdrawals up to the basis paid into the contract and loans thereafter will not create an immediate taxable event, but substantial tax ramifications could result upon contract lapse or surrender. Surrender charges may reduce the policy's cash surrender value in early years.
2. The Lifetime Income Benefit Rider provides a benefit for the life of the insured if certain conditions are met, including but not limited to the insured's attained age being between 60 and 85 and that the policy has been in force for at least 10 years. Insufficient policy values, outstanding policy loans and other considerations may also restrict exercising the rider. Receipt of income benefits will reduce the policy's death benefit and cash surrender value and may terminate other riders or reduce their benefits. There is a charge for the rider during the income payment period.
3. Substantial limitations apply to exercising the Overloan Protection Rider, including the policy be in force for at least 15 years and the insured having attained the age of 75. Exercising the rider results in a paid-up policy. There is no cost for this optional rider, however there is a fee charged when the rider is exercised.
4. The interest bonus is referred to as the Annual Accumulated Value Enhancement (AAVE) rider in the contract.
5. Receipt of accelerated benefits will reduce the policy's cash surrender value and death, may be a taxable event and may affect a family's eligibility for public assistance programs. Any claim for critical illness or critical injury benefits for a given Qualifying Event must be filed within 365 days following the occurrence of such Qualifying Event.

Credit Suisse has no relationship to National Life Insurance Company ("**NLIC**"), other than the licensing of the Credit Suisse Balanced Trend index and its service marks for use in connection with the Indexed Universal Life Insurance Policy and is not a party to any transaction contemplated hereby.

The rules of the Credit Suisse Balanced Trend index may be amended by Credit Suisse International (the "**Index Creator**"). An amendment to the rules may result from, without limitation, a change to the construction or calculation rules for the Index or from the Index Creator determining that a change to the rules is required or desirable in order to update them or to address an error, omission or ambiguity. No assurance can be given that any such amendment would not affect parties to this document.

The Index is an excess return index, which means that it reflects the return of components net of the cost of funding a hypothetical investment in them. The Index returns are likely to be negatively affected by such costs of funding. The Index has a 0.5% per annum embedded fee deducted on a daily basis. The index fee will place a drag on the performance of the Index, offsetting any appreciation of its portfolio, exacerbating any depreciation of its portfolio and causing the level of the Index to decline steadily if the value of its portfolio remains relatively constant.

The end-of-day value of the Credit Suisse Balanced Trend index is published subject to the provisions in the rules of the Index. Neither the Index Creator nor any of its affiliates is obliged to publish any information regarding the index other than as stipulated in the rules of these indices.

The Indexed Universal Life Insurance Policy is not in any way sponsored, endorsed, sold or promoted by Credit Suisse and Credit Suisse does not make any warranty or representation whatsoever, expressly or impliedly, either as to the results to be obtained from the use of the Credit Suisse Balanced Trend index ("**the Index**"), the figure at which the said Index stands at any particular time on any particular day or otherwise, or the advisability of or results to be obtained by using, investing in, or trading the Indexed Universal Life Insurance Policy. The selection of the Index as a crediting option under the Indexed Universal Life Insurance Policy does not obligate NLIC or Credit Suisse to invest premium payments in the components of the Index or in other products linked to the Index. Credit Suisse shall not be liable for the results obtained by using, investing in, or trading the Indexed Universal Life Insurance Policy. The Index is compiled, maintained and calculated by Credit Suisse. However, Credit Suisse shall not be liable (whether in negligence or otherwise) to any person for any error in the Index and Credit Suisse shall not be under any obligation to advise any person of any error therein.

No actual investment which allowed tracking of the performance of the Index was possible before 11/20/2017. The return results provided herein are illustrative only and were derived by means of a retroactive application of a back-casted model designed with the benefit of hindsight. These back-casted, hypothetical, historical annualized index returns have inherent limitations. No representation is made that in the future the Index will have the returns shown. Alternative modeling techniques or assumptions might produce significantly different results and may prove to be more appropriate. Actual annualized returns may vary materially from this analysis. Any effective volatility controls may reduce the overall rate of return.

The Index Parties have no obligation to, and will not, take the needs of LICS or any purchaser of a Product into consideration in determining, composing or calculating the Index. The selection of the Index as a crediting option under a Product does not obligate LICS or SG to invest any payments in the components of the Index.

THE INDEX PARTIES MAKE NO REPRESENTATION OR WARRANTY WHATSOEVER, WHETHER EXPRESS OR IMPLIED, AND HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES (INCLUDING, WITHOUT LIMITATION, THOSE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE), WITH RESPECT TO THE INDEX OR ANY DATA INCLUDED THEREIN OR RELATING THERETO, AND IN PARTICULAR DISCLAIM ANY GUARANTEE OR WARRANTY EITHER AS TO THE QUALITY, ACCURACY, TIMELINESS AND/OR COMPLETENESS OF THE INDEX OR ANY DATA INCLUDED THEREIN, THE RESULTS OBTAINED FROM THE USE OF THE INDEX AND/OR THE CALCULATION OR COMPOSITION OF THE INDEX, OR CALCULATIONS MADE WITH RESPECT TO ANY PRODUCT AT ANY PARTICULAR TIME ON ANY PARTICULAR DATE OR OTHERWISE. NO INDEX PARTY SHALL HAVE ANY LIABILITY TO ANY PARTY FOR ANY ACT OR FAILURE TO ACT BY THE INDEX PARTIES IN CONNECTION WITH THE DETERMINATION, ADJUSTMENT OR MAINTENANCE OF THE INDEX. WITHOUT LIMITING THE FOREGOING, IN NO EVENT SHALL AN INDEX PARTY HAVE ANY LIABILITY FOR ANY DIRECT DAMAGES, LOST PROFITS OR SPECIAL, INCIDENTAL, PUNITIVE, INDIRECT OR CONSEQUENTIAL DAMAGES, EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

No Index Party is a fiduciary or agent of any purchaser, seller or holder of a Product. None of SG, S&P, or any third party licensor shall have any liability with respect to any Product in which an interest crediting option is based is on the Index, nor for any loss relating to such Product, whether arising directly or indirectly from the use of the Index, its methodology, any SG Mark or otherwise. Obligations to make payments under the Products are solely the obligation of LICS.

In calculating the performance of the Index, SG deducts a maintenance fee of 0.50% per annum on the level of the Index, and fixed transaction and replication costs, each calculated and deducted on a daily basis. The transaction and replication costs cover, among other things, rebalancing and replication costs. The total amount of transaction and replication costs is not predictable and will depend on a number of factors, including the leverage of the Index, which may be as high as 200%, the performance of the components underlying the Index, market conditions and the changes in the market environments, among other factors. The transaction and replication costs, which are increased by the Index’s leverage, and the maintenance fee will reduce the potential positive change in the Index and increase the potential negative change in the Index. While the volatility control applied by the Index may result in less fluctuation in rates of return as compared to indices without volatility controls, it may also reduce the overall rate of return as compared to products not subject to volatility controls.
