¹ The minimum issue age in New York is 40.

² Minimum premium amounts in California, New York, Washington, and Wisconsin may vary.

³ Dividends are not guaranteed.

⁴ 90 day Waiting Period in New York.

⁵ 1035 exchanges from a policy with a loan are not permitted.

⁶ The maximum loan amount is the portion of the life policy's cash value that, with accrued loan interest, would accumulate to equal the life policy's cash value at the next policy anniversary. The partial return of LTCI Rider premium portion of the Policy Surrender Value cannot be used to secure a policy loan. Taking loans from the policy will reduce the death benefit payable and LTCI Rider benefits available. If there is an outstanding loan on the policy, and LTCI Rider benefits are being paid, each claim payment made as an acceleration of death benefit will be reduced by an amount that will be applied to reduce the loan. The reduction in the loan will be in proportion to the reduction in the cash value (net of liens).

⁷ A paramedical exam is generally not needed, but may be required to determine insurability in certain circumstances. An additional cognitive telephone interview is required for applicants 64 years and older.

The Power of Dividends

As a mutual life insurance company, Massachusetts Mutual Life Insurance Company (MassMutual®) does not have shareholders. Instead, the company operates for the benefit of its participating policyowners. Participating policyowners are eligible to receive a dividend each year. Dividends are not guaranteed.

What sets CareChoice One apart from our competitors' products is the potential to earn dividends as a participating whole life policy. Dividends used to purchase paid-up additions will increase the policy's death benefit and the Policy Surrender Value. This additional death benefit will also increase the LTC Benefit Pool.
