The following crediting strategies use a participation rate crediting method. The Enhanced Participation Rate is available in an Annual Point-to-Point and a Two-year Point-to-Point and includes a strategy charge for a higher participation rate compared to the Non-Enhanced Participation Rate with a lower participation rate which does not include a strategy charge. The strategy charge is assessed on the percentage chosen in exchange for the enhanced rate and is known as a "Strategy Fee Annual Percentage" in your contract. The charge is deducted once each term from your accumulation value which may result in a loss of premium in certain scenarios. The charge equals 0.95% and is guaranteed to stay the same for the life of the contract. The annual charge is multiplied by two for the Two-year Point-to-Point crediting strategy.

\*\*403(b) loans can only be taken from funds allocated to the Fixed Account.

**Allocation percentages must be whole numbers and equal 100%**

\*The charge will be deducted once each term at the earliest of any partial withdrawal that exceeds the penalty-free withdrawal amount, a full surrender or the end of the term from the accumulated value allocated to the enhanced participation rate method. The strategy charge will be deducted regardless of the interest credited to the Contract and can lead to loss of premium.

Morgan Stanley Dynamic Global Index (the "Index") is the property of Morgan Stanley & Co. LLC.

Any product that is linked to the performance of the Index is not sponsored, endorsed, sold or promoted by Morgan Stanley & Co. LLC, or any of its affiliates (collectively, "Morgan Stanley"). Neither Morgan Stanley nor any other party (including without limitation any calculation agents or data providers) makes any representation or warranty, express or implied, regarding the advisability of purchasing this product. In no event shall Morgan Stanley have any liability for any special, punitive, indirect or consequential damages including lost profits, even if notified of the possibility of such damages. The Index is the exclusive property of Morgan Stanley. Morgan Stanley and the Index are service marks of Morgan Stanley and have been licensed for use for certain purposes. Neither Morgan Stanley nor any other party has or will have any obligation or liability to owners of this product in connection with the administration or marketing of this product, and neither Morgan Stanley nor any other party guarantees the accuracy and/or the completeness of the Index or any data included therein.

No purchaser, seller or holder of this product, or any other person or entity, should use or refer to any Morgan Stanley trade name, trademark or service mark to sponsor, endorse, market or promote this product, without first contacting Morgan Stanley to determine whether Morgan Stanley's permission is required. Under no circumstances may any person or entity claim any affiliation with Morgan Stanley without the prior written permission of Morgan Stanley.

In calculating the performance of the Index, Morgan Stanley deducts, on a daily basis, a servicing cost of 0.50% per annum. This reduces the positive change or increase the negative change in the Index level and thus decreases the return of any product linked to the Index. The volatility control calculation applied by Morgan Stanley as part of the Index's methodology may decrease the Index's performance and thus the return of any product linked to the Index. In addition, because the volatility control calculation is expected to reduce the overall volatility of the Index, it will also reduce the cost of hedging certain products linked to the Index.
