

OneAmerica[®] Care Solutions Underwriting

What to know and what to expect

OneAmerica Care Solutions products help you protect yourself, your future and your loved ones from long-term care costs. Throughout your experience with the companies of OneAmerica — from application to underwriting to claims — our goal is to anticipate your needs, resolve your concerns and serve you even better than you expect.

A necessary step in the purchase process is underwriting. This worksheet will provide helpful details about the underwriting interview. If you have questions before or after your interview, don't hesitate to contact your licensed financial professional.

Preparing for the interview

The purpose of this interview is to collect information to support the underwriting process. A Care Solutions underwriter will evaluate this information to determine how your policy will be issued. The interview will take approximately 45–60 minutes per applicant.

Important interview notes

- Only you, the applicant, may be on the phone throughout the interview.
- Using a speaker phone is not permitted.
- Any indication that you are being coached or that any other person is part of the interview will impact policy approval.
- Plan to do the interview in a quiet area. Then just relax and take your time.
- The interview can't be completed if you are driving.

Translation services are available. If you need to do the interview in a language other than English, please let your financial professional know. We will take steps to ensure all parties are able to communicate clearly. Please allow additional time to complete the interview, if you are utilizing translation services.

What the interviewer will ask

The interviewer will ask you questions about your medical history and health status, like:

- Your physicians' names and addresses
- Medications you take
- Your health conditions and medical diagnoses
- Employment status
- Residence and living arrangements
- Hobbies and social activities

If you are age 60 and over, you will be asked to perform verbal exercises to help evaluate your cognitive status.

After the interview

A Care Solutions underwriter will evaluate your application and information from the telephone interview. The underwriter will then approve the application, decline the application or determine if more information is needed.

OneAmerica protects your privacy

OneAmerica and any vendor representing our companies will protect your privacy and safeguard the information you provide. For more details, refer to our Privacy Practice Notice (form C-24925) and Notice of Insurance Information Practices (form I-19080).
