Note: Standard & Poor's 21 ratings are a measure of claims-paying ability and range from AAA (Exceptionally Strong) to R (Regulatory Action). Moody's Investors Service's 21 ratings are a measure of financial security and range from Aaa (Exceptional) to C (Extremely Poor). A.M. Best's 15 ratings are a measure of claims-paying ability and range from A++ (Superior) to F (In Liquidation). Fitch's 19 ratings are a measure of insurer financial strength and range from AAA (Exceptionally Strong) to C (Distressed).

Ratings do not reflect and are not indicative of the performance of a variable annuity's subaccounts, which fluctuate with market conditions. Only the fixed account rates, death benefits, income guarantees and optional protection features of the annuity are backed by the claims-paying ability of the insurer. While ratings can be objective indicators of an insurance company's financial strength and can provide a relative measure to help select among insurance companies, they are not guarantees of the future financial strength and/or claims-paying ability of a company and do not apply to any underlying variable portfolios.

Annuities are long-term insurance products designed for retirement. Early withdrawals may be subject to withdrawal charges. Partial withdrawals reduce the contract value and may also reduce certain benefits under the contract, such as the death benefit and the amount available upon a full surrender. Withdrawals of taxable amounts are subject to ordinary income tax and, if taken prior to age 59½, an additional 10% federal tax may apply. An investment in a variable annuity or registered index-linked annuity involves investment risk, including possible loss of principal. The contract, when surrendered, may be worth more or less than the total amount invested. The purchase of an annuity is not required for, and is not a term of, the provision of any banking service or activity. Products and features may vary by state and may not be available in all states.

Registered index-linked annuities are sold by prospectus only. The prospectus contains the investment objectives, risks, fees, charges, expenses and other information regarding the contract, which should be considered carefully before investing. A prospectus, and summary prospectus if available, may be obtained by calling 1-877-445-1262. Investors should read the prospectus carefully before investing.

Variable annuities are sold by prospectus only. The prospectus for each underlying fund as well as the variable annuity contract describe the investment objectives, risks, fees, charges, expenses, and other information for each, respectively. The statutory and summary prospectuses for each underlying fund and the variable annuity contract should be considered carefully before investing. Please contact your insurance and securities licensed financial professional or call 1-800-445-7862 to obtain any of those prospectuses, which should be read carefully before investing.
