Business Exec Enhanced Surrender Value Rider (Rider form: 22BESVR-7101)

Available With: *Lincoln AssetEdge® VUL (2022)*, *Lincoln AssetEdge® VUL (2025)*

Designed for business owners who need balance sheet sensitive solutions, such as key person or executive benefits. The Business Exec Enhanced Surrender Value Rider allows the policy owner to report greater assets on their balance sheet reflecting the total value of the coverage. The early years of a life insurance policy typically hold the least available cash surrender value. This could be critical when considering long-term goals. If the policy is surrendered while the rider is in-force, the Enhanced Surrender Value, if greater will be paid in lieu of the Surrender Value otherwise payable under the policy. The rider does not provide Enhanced Surrender Value for partial surrenders, loans or in connection with the exchange of the policy for any other policy. The Business Exec Enhanced Surrender Value Rider is in effect from year 1 through the end of the surrender charge period.

Rider Charge:

- In years 2-5 there will be a monthly load per thousand of initial specified amount. The cost varies by the option chosen:
 - Option 1 waives surrender charges during the policy's initial Specified Amount surrender charge period.
 - Option 2 waives surrender charges during the policy's initial Specified Amount surrender charge period and replaces a portion of the administrative charges taken out in the first 9 years.
- It will not vary by issue age or gender underwriting class.

Issue Guidelines:

- Must be elected when the policy is issued.
- Available with Full Underwriting with one of the following scenarios:
 - Business is the owner
 - Business is the Premium Payor
 - Approved TPA
 - Accounts Receivable
- Available on Simplified Issue or Guaranteed Issue.
- The rider is commissionable.

Surrender Value Enhancement Endorsement (SVEE) (Rider form: ICC15END-7026/END-7026)

Available With: *Lincoln WealthAccumulate*® 2 IUL (2020)

When selected, the endorsement becomes a permanent part of the policy and cannot be terminated after issue. The Surrender Value Enhancement Endorsement was designed to allow for higher early cash surrender values in the first 10 policy years. This is important when a business is using current assets to purchase insurance that may cause the balance sheet to temporarily appear to lose value.

This Endorsement enhances the Policy's Cash Surrender Value by waiving all surrender charges. No surrender charges will be applied to the Policy in the determination of the Policy's Cash Value and Cash Surrender Value (used to determine if the Policy is in Force).

As a result, this Endorsement also nullifies the Policy's "Index Growth Cap Trigger for Waiver of Surrender Charges" provision. (Cap Reduction Protection)

Rider Cost

When the endorsement is attached to *Lincoln WealthAccumulate*® IUL, an increased per \$1000 charge applies to the base policy.

The Surrender Value Enhancement Endorsement is primarily sold through Simplified Issue and Guaranteed Issue underwriting programs on multiple lives. It is available to individuals in fully underwritten forms only in very limited circumstances. The minimum issue age is 20.

The Enhanced Allocation Rider gives the policy holder the option to utilize cash value within the policy to pursue increased upside potential through indexed features. Each month the rider is active, a charge will be taken from the Separate Account to purchase an uncapped option on the S&P 500 with a 0% floor and a participation rate. Each month the participation rate will be set at the time of option purchased based on current market prices. This rider uses the change in value of the Index to calculate a credit that will be applied to the Separate Account Value or Fixed Account Value (the Enhanced Allocation Rider Benefit Amount).

If elected at issue, the Enhanced Allocation Rider is active upon placement, but the policy holder has the right to turn the rider on or off on a monthly basis. When the rider is inactive, no charge will be deducted from the Separate Account. For each month the rider is active, a portion of the Separate Account Value (the Enhanced Allocation Rider Charge) will be taken on the 15th of each month (Enhanced Allocation Option Start Date) and purchase the uncapped options that support this rider.

Rider Charge:

- 2.4% annualized charge

Issue Guidelines:

- Must be elected when the policy is issued.
