[800-778-2255]

Insured JOHN DOE

XX XXX XXX **Policy Number**
AUG 1, 2018 **Contract Date**

Agency R-NK 1

Individual Flexible Premium Universal Life Insurance Policy. Insurance payable only upon death. Cash values reflect premium payments, interest credited to the contract fund, and charges. Non-participating.

We will promptly pay the beneficiary the death benefit described under the Death Benefit provision of this contract if we receive due proof that the Insured died. We make this promise subject to all the provisions of this contract.

The death benefit amount and duration depend on the death benefit option, the payment of premiums, any interest credited to the contract fund, and the charges made. (See Death Benefit Provisions.)

The cash value may increase or decrease daily, depending on the payment of premiums, any interest credited to the contract fund, and the charges made. There is no guaranteed minimum cash value.

If there is ever a question about this contract, please see a Pruco Life Insurance Company representative or contact one of our offices.

Right to Cancel Contract

You may return this contract to us on or before the tenth day after the delivery of the contract. (If the purchase of this contract is a replacement under state law, this duration will be extended to a minimum of 30 days or longer as required by law.) All you have to do is take the contract or mail it to one of our offices or to the representative who sold it to you. It will be canceled and we will return all premiums paid, including fees and charges.

Signed for Pruco Life Insurance Company,
an Arizona Corporation.

[*Ligyan B. Stone*]

Secretary

[*John A. Fricki*]

President

PLEASE READ YOUR POLICY CAREFULLY; it is a legal contract between you and Pruco Life Insurance Company.

------------------------	----------------

[Other Benefit(s) on the Insured (see appropriate form for details)]

[Rider [ICC18 VL 100 B] - Payment of Net Premium Amount Benefit Upon Insured's Total Disability.]

[Rider VL 110 B - Rider For Insured's Accidental Death Benefit.

Amount	[\$25,000.00]
--------	---------------

CONTRACT DATA CONTINUED ON NEXT PAGE

CONTRACT DATA CONTINUED

[Rider [ICC17 VL 145 B5] - Rider to Provide Acceleration of Death Benefit.]

[Rider [ICC18 PLI 496] - Rider For Payment of an Additional Amount Upon Surrender.]

[Rider ICC17 PLI 552 – Rider for Excess Loan Protection.]

[Rider ORD 87241 - Settlement Options to Provide Acceleration of Death Benefits.]

[Insurance on All Other Insureds (see appropriate form for details)]

[Rider [ICC16 VL 182 B] on the life of each dependent child - Level Term Insurance Benefit on Dependent Children.

Amount [\$25,000.00]

[Rider [ICC16 VL 184 B] on the life of each dependent child - Level Term Insurance Benefit on Dependent Children.

Amount [\$25,000.00]

Minimum Initial Premium

The minimum initial premium due on the Contract Date is [\$84.41].

Contract Limitations

The minimum premium we will accept is \$25.00.

The minimum Basic Insurance Amount is [\$250,000.00.]

The minimum decrease in Basic Insurance Amount is \$5,000.00.

The minimum amount you may withdraw is \$250.00.

[The Type C Limiting Amount is [\$250,000.00].]

[The Type C Death Benefit Factor is [2].]

Adjustments to Premium Payments

From each premium paid we will:

subtract a premium-based administrative charge of up to 2.5% of the premium paid.

CONTRACT DATA CONTINUED ON NEXT PAGE

CONTRACT DATA CONTINUED

subtract a charge for sales expenses at a rate of up to 7.44% of the premium paid.

The remainder of the premium is the net premium amount.

Adjustments to the Contract Fund

On the Contract Date the contract fund is equal to the net premium amount credited on that date, minus any of the charges described below which may be due on that date.

On each day after the contract date, we will adjust the contract fund by:

adding any net premium amounts.

adding guaranteed interest at an effective annual rate of 2% (0.00542552% a day).

adding any excess interest at an effective annual rate that Pruco Life declares. (We will not credit interest to the amount of any loan.)

adding guaranteed interest to the portion of the contract fund that has been loaned at an effective annual rate of 3% (0.00809863% a day).

subtracting any withdrawals.

subtracting an administrative charge of up to \$25.00 for any withdrawals.

subtracting an administrative charge of up to \$25.00 for any decrease in basic insurance amount.

subtracting any surrender charge that may result from a withdrawal, surrender, or reduction in the basic insurance amount.

And on each monthly date, we will adjust the contract fund by:

subtracting a monthly charge for administrative expenses of up to:
[\$0.21] per \$1,000 of the basic insurance amount plus \$15.00;
changing on [AUG 1, 2038] to [\$0.09] per \$1,000 of the basic insurance amount plus \$15.00 thereafter.

subtracting a monthly charge for the cost of insurance (see Cost of Insurance).

[subtracting a monthly charge for the Payment of Net Premium Amount Benefit Upon Insured's Total Disability (Rider [ICC18 VL 100 B] of [7.502%] of the current total disability benefit as described in the Total Disability Benefit provision of the rider (this charge is waived during periods of total disability as described in the rider).]

CONTRACT DATA CONTINUED ON NEXT PAGE

CONTRACT DATA CONTINUED

[subtracting a maximum monthly charge for Insured's Accidental Death Benefit (Rider VL 110 B) of [\$1.66].]

[subtracting a monthly charge for Rider to Provide Acceleration of Death Benefit (Rider [ICC17 VL 145 B5]). This charge will be waived from the time benefit payments begin.]

[subtracting a maximum monthly charge for Level Term Insurance Benefit on Dependent Children (Rider ICC16 VL 182 B) of [\$10.40 payable until [AUG 1, 2058].]

[subtracting a maximum monthly charge for Level Term Insurance Benefit on Dependent Children (Rider ICC16 VL 184 B) of [\$10.40 payable until [AUG 1, 2058].]

[subtracting a single charge for Rider For Payment of an Additional Amount Upon Surrender (Rider [ICC18 PLI 496]) due on the contract date of [\$187.50].]

[subtracting a single charge for Rider for Excess Loan Protection (Rider ICC17 PLI 552) when the rider is exercised of no more than [3.5%] of the contract fund. Your request to exercise the rider must be dated on or after the later of (a) the fifteenth contract anniversary and (b) the contract anniversary on or after the Insured's 75th birthday. The contract debt must be equal to or greater than 95% of the cash value. Please see the rider for additional details.]

Schedule of Maximum Surrender Charges

For a full surrender of the contract, the maximum charge we will deduct from the contract fund is shown below.

For a Surrender Occurring During Contract Year	The Maximum Surrender Charge is:
[1]	[\$4815.00]
[2]	[\$4595.00]
[3]	[\$4357.50]
[4]	[\$4082.50]
[5]	[\$3767.50]
[6]	[\$3495.00]
[7]	[\$3222.50]
[8]	[\$2905.00]
[9]	[\$2587.50]
[10]	[\$2222.50]
[11]	[\$1815.00]
[12]	[\$1360.00]
[13]	[\$907.50]
[14]	[\$452.50]
[15] and later	[\$0.00]

adding any net premium amounts.

adding guaranteed interest at an effective annual rate of 2% (0.00542552% a day).

adding any excess interest at an effective annual rate that Pruco Life declares. (We will not credit interest to the amount of any loan.)

adding guaranteed interest to the portion of the contract fund that has been loaned at an effective annual rate of 3% (0.00809863% a day).

subtracting any withdrawals.

subtracting an administrative charge of up to \$25.00 for any withdrawals.

subtracting an administrative charge of up to \$25.00 for any decrease in basic insurance amount.

subtracting any surrender charge that may result from a withdrawal, surrender, or reduction in the basic insurance amount.

And on each monthly date, we will adjust the contract fund by:

subtracting a monthly charge for administrative expenses of up to:
[\$0.21] per \$1,000 of the basic insurance amount plus \$15.00;
changing on [AUG 1, 2038] to [\$0.09] per \$1,000 of the basic insurance amount plus \$15.00 thereafter.

subtracting a monthly charge for the cost of insurance (see Cost of Insurance).

[subtracting a monthly charge for the Payment of Net Premium Amount Benefit Upon Insured's Total Disability (Rider [ICC18 VL 100 B] of [7.502%] of the current total disability benefit as described in the Total Disability Benefit provision of the rider (this charge is waived during periods of total disability as described in the rider).]

CONTRACT DATA CONTINUED ON NEXT PAGE

CONTRACT DATA CONTINUED

[subtracting a maximum monthly charge for Insured's Accidental Death Benefit (Rider VL 110 B) of [\$1.66].]

[subtracting a monthly charge for Rider to Provide Acceleration of Death Benefit (Rider [ICC17 VL 145 B5]). This charge will be waived from the time benefit payments begin.]

[subtracting a maximum monthly charge for Level Term Insurance Benefit on Dependent Children (Rider ICC16 VL 182 B) of [\$10.40] payable until [AUG 1, 2058].]

[subtracting a maximum monthly charge for Level Term Insurance Benefit on Dependent Children (Rider ICC16 VL 184 B) of [\$10.40] payable until [AUG 1, 2058].]

[subtracting a single charge for Rider For Payment of an Additional Amount Upon Surrender (Rider [ICC18 PLI 496]) due on the contract date of [\$187.50].]

[subtracting a single charge for Rider for Excess Loan Protection (Rider ICC17 PLI 552) when the rider is exercised of no more than [3.5%] of the contract fund. Your request to exercise the rider must be dated on or after the later of (a) the fifteenth contract anniversary and (b) the contract anniversary on or after the Insured's 75th birthday. The contract debt must be equal to or greater than 95% of the cash value. Please see the rider for additional details.]

Schedule of Maximum Surrender Charges

For a full surrender of the contract, the maximum charge we will deduct from the contract fund is shown below.

For a Surrender Occurring During Contract Year	The Maximum Surrender Charge is:
[1]	[\$4815.00]
[2]	[\$4595.00]
[3]	[\$4357.50]
[4]	[\$4082.50]
[5]	[\$3767.50]
[6]	[\$3495.00]
[7]	[\$3222.50]
[8]	[\$2905.00]
[9]	[\$2587.50]
[10]	[\$2222.50]
[11]	[\$1815.00]
[12]	[\$1360.00]
[13]	[\$907.50]
[14]	[\$452.50]
[15] and later	[\$0.00]

END OF TABLE(S)

DEFINITIONS

We, our, us, the Company and **Pruco Life**. - Pruco Life Insurance Company.

You and **Your**. - The owner(s) of the contract.

Insured. - The person named as the Insured on the first page. He or she need not be the owner.

Issue Date. - The contract date shown on the first page.

Anniversary or **contract anniversary**. - The same day and month as the contract date in each later year.

Contract Year. - A year that starts on the contract date or on an anniversary.

Attained Age. - The Insured's attained age at any time is the issue age plus the number of completed years since the contract date. You will find the Insured's issue age near the top of page 3.

Monthly Date. - The contract date and the same day as the contract date in each later month.

Contract Month. - A month that starts on a monthly date.

Company Representative. - Pruco Life licensed producers and brokers authorized to sell Pruco Life products.

THE CONTRACT

Entire Contract

This policy and any attached copy of a rider, endorsement, and application, including an application requesting a change, form the entire contract. We assume that all statements in an application are made to the best of the knowledge and belief of the person(s) who make them; in the absence of fraud, they are deemed to be representations and not warranties. We rely on those statements when we issue the contract and when we change it. We will not use any statement, unless made in an application, to try to void the contract, to contest a change, or to deny a claim.

Contract Modifications

Only a Pruco Life officer with the rank or title of vice president may agree to modify this contract, and then only in writing.

Incontestability

Except for non-payment of enough premium to prevent your policy from lapsing (see Default), we will not contest this contract after it has been in force during the Insured's lifetime for two years from the issue date. We will not contest this contract for statements made in an application for reinstatement after the policy has been in force and the Insured has been alive for two years from the date of reinstatement.

OWNERSHIP

Unless a different owner is named in the application, the owner of the contract is the Insured. If a different owner is named, we will show that owner in an endorsement to the contract. This ownership arrangement will remain in effect unless you ask us to change it.

You may change the ownership of the contract by sending us a request in a form that meets our needs. We may ask you to send us the contract to be endorsed. If we receive your request in a form that meets our needs, and the contract if we ask for it, we will file and record the change at our Home Office, and, unless a different future effective date is specified by you, it will take effect on the date you signed the request. Any rights created by your request will not apply to any payments we have made or actions we have taken before the request was received and recorded at our Home Office. If you request an effective date after the date we have received and recorded your request, any rights created by your request will not apply to any payments we have made or actions we have taken prior to your chosen effective date. If the owner is a joint owner, all rights under this contract will be equally shared. If there is a contingent owner, all rights under this policy will remain with the primary owner during the primary owner's lifetime.

While the insured is living, the owner alone is entitled to any contract benefit and value, and to the exercise of any right and privilege granted by the contract or by us.

DEATH BENEFIT PROVISIONS

We will pay a benefit to the beneficiary at the Insured's death if this contract is in force at the time of that death; that is, if it has not been surrendered and it is not in default past the grace period.

If the contract is not in default, the amount we will pay will be the death benefit determined as of the date of the Insured's death reduced by any contract debt (described under Loans).

If the contract is in default, and the Insured's death occurs in the grace period (described under Default), we will pay the death benefit reduced by any contract debt and the amount needed to pay charges through the date of death.

Payments received after the Insured's date of death will be returned. Charges will not be deducted for any period after the Insured's date of death. If the Insured's death occurs past the grace period, no death benefit is payable.

Death Benefit

This contract has a Type A or Type B death benefit. We show the type of death benefit that applies to this contract under Type of Death Benefit.

If this contract has a Type A death benefit, the death benefit on any date is equal to the greater of: (1) the basic insurance amount, and (2) the contract fund before deduction of any monthly charges due on that date, multiplied by the attained age factor that applies.

If this contract has a Type B death benefit, the death benefit on any date is equal to the greater of: (1) the basic insurance amount plus the contract fund before deduction of any monthly charges due on that date, and (2) the contract fund before deduction of any monthly charges due on that date, multiplied by the attained age factor that applies.

For the purpose of computing the death benefit, if the contract fund is less than zero we will consider it to be zero. Your basic insurance amount and attained age factors are shown in the contract data pages.

Additional Death Benefits

This contract may provide additional benefits, which may be payable on an Insured's death. If it does, they will be listed on a contract data page, and a form describing the benefit will be included in this contract. Any such benefit will be payable only if the contract has not been surrendered and is not in default past the grace period at the time of the death.

Method of Payment

You may choose to have any death benefit paid in a single sum or under one of the optional modes of settlement shown in the Settlement Options provision.

Suicide Exclusion

If the Insured, whether sane or insane, dies by suicide within two years from the issue date, this contract will end without any death benefit paid, and we will return the premiums paid less any contract debt and less any withdrawals.

If the Insured, whether sane or insane, dies by suicide within two years from the effective date of this policy's reinstatement, this contract will end without any death benefit paid, and we will return the reinstatement charge and any premiums paid after the reinstatement date less any contract debt and less any withdrawals.

Interest on Death Benefit

Any death benefit described above that is requested as a single sum will be credited with interest from the date of death at a rate at least equal to the effective annual rate declared by us for funds left on deposit (see Settlement Options). We will use the rate that is in effect on the date of death.

Interest shall accrue on the death benefit at the rate described above plus additional interest at a rate of 10% annually beginning 31 calendar days from the latest of the following dates:

- (a) the date that we have received due proof of the death of the Insured;
- (b) the date we receive all the information we need to be able to determine the beneficiary(ies) and what we owe them; and
- (c) the date that any legal impediments to the payment of the death benefit have been resolved. Such legal impediments may include, but are not limited to, the establishment of legal guardians, appointment of trustees or executors, or the need for additional information required by state and federal reporting requirements.

We may credit additional interest in accordance with our current guidelines or applicable law at the time of claim.

DECREASE IN BASIC INSURANCE AMOUNT

You may decrease the basic insurance amount, subject to our approval and all these conditions and the paragraphs that follow:

1. You must ask for the decrease in a form that meets our needs.
2. The amount of a decrease must be at least equal to the minimum decrease in basic insurance amount shown under Contract Limitations in the contract data pages.
3. The basic insurance amount after a decrease must be at least equal to the minimum basic insurance amount shown under Contract Limitations in the contract data pages.

4. If we ask you to do so, you must send us the contract to be endorsed.
5. The contract must not be in default.
6. You may not decrease the basic insurance amount if any surrender charge on the decrease exceeds the amount in your contract fund less the administrative charge (shown under Adjustments to the Contract Fund) for the decrease.

We may decline the decrease if we determine it would cause the contract to fail to qualify as life insurance under the applicable tax law. A decrease will take effect only if we approve your request for it at our Home Office and will take effect on the date we approve it. If we approve the decrease, we will recompute the contract's charges and values in the appropriate tables. A decrease in the basic insurance amount may also affect the amount of any extra benefits this contract might have. We will send you new contract data pages showing the amount and effective date of the decrease and the recomputed charges and values. If the Insured is not living on the effective date, the decrease will not take effect. We may deduct the administrative charge (shown under Adjustments to the Contract Fund) for the decrease.

Surrender Charge on Decreases

We will reduce the basic insurance amount by the amount of the decrease. To determine the surrender charge associated with the decrease, we multiply the surrender charge (see Schedule of Maximum Surrender Charges) by the amount of the decrease, and divide by the basic insurance amount before the decrease.

COST OF INSURANCE

On each monthly date, we will deduct a charge for the cost of insurance from the contract fund. To determine the maximum charge for the cost of insurance, we use the following method:

We determine the maximum cost of insurance rate for the basic insurance amount shown in the contract data pages using the maximum monthly rate shown under the Table of Maximum Monthly Insurance Rates. We then multiply the rate by the net amount at risk (see Contract Fund) divided by \$1,000 to compute the maximum charge for the cost of insurance. For the purpose of computing the net amount at risk, if the contract fund is less than zero, we will consider it to be zero.

CHANGING THE TYPE OF DEATH BENEFIT

This contract has a Type A or Type B death benefit (see Death Benefit). Subject to our approval, you may change the type of death benefit from Type B to Type A (you may not change the type of death benefit from Type A to Type B). We will adjust the basic insurance amount so that the death benefit immediately after the change will remain the same as the death benefit immediately before the change.

If you are changing from a Type B to a Type A death benefit, we will increase the basic insurance amount by the contract fund on the date the change takes effect.

If a Type C Death Benefit endorsement is attached to your contract, and if the change in the type of death benefit results in a reduction in the basic insurance amount, the basic insurance amount after the decrease must be at least equal to the minimum basic insurance amount, which we show under Contract Limitations in the contract data pages. We may deduct from the contract fund the administrative charge shown for decreases in the basic insurance amount under Adjustments to the Contract Fund. We may deduct from the contract fund a surrender charge for a reduction in the basic insurance amount as described in the Decrease In Basic Insurance Amount provision.

A change in the type of death benefit will take effect only if we approve your request at our Home Office. If we approve the change, we will recompute the contract's charges, values and limitations shown in the contract data pages. The change will take effect on the monthly date that coincides with or next follows the date we approve your request. We will send you new contract data pages showing the amount and effective date of the change in basic insurance amount and the recomputed charges, values and limitations.

Your request for a change must be in a form that meets our needs. We may require you to send us this contract before we make the change.

BENEFICIARY

You may designate or change a beneficiary by sending us a request in a form that meets our needs. We may ask you to send us the contract to be endorsed. If we receive your request, and the contract if we ask for it, we will file and record the change at our Home Office and, unless a different future effective date is specified by you, it will take effect on the date you signed the request. Any rights created by your request will not apply to any payment(s) we have made or actions we have taken before your request was received and recorded. If you request an effective date after the date we have received and recorded your request, any rights created by your request will not apply to any payments we have made or actions we have taken prior to your chosen effective date. Any beneficiary's interest is subject to the rights of any assignee we know of.

When a beneficiary is designated, any relationship shown is to the Insured, unless otherwise stated. To show priority, we may use numbered classes, so that the class with first priority is called class 1, the class with next priority is called class 2, and so on. When we use numbered classes, these statements apply to beneficiaries unless the form states otherwise:

1. One who survives the Insured will have the right to be paid only if no one in a prior class survives the Insured.
2. One who has the right to be paid will be the only one paid if no one else in the same class survives the Insured.
3. Two or more in the same class who have the right to be paid will be paid in equal shares.
4. If none survives the Insured, we will pay in one sum to the Insured's estate.

Before we make a payment, we have the right to decide what proof we need of the identity, age, or other facts about any persons designated as beneficiaries. If beneficiaries are not designated by name and we make payment(s) based on that proof, we will not have to make the payment(s) again.

PREMIUM PAYMENT

Payment of Premiums

The minimum initial premium shown in the contract data pages is due on or before the contract date. There is no insurance under this contract until that premium is paid. We may require an additional premium if adjustments to premium payments plus any contract fund charges due on or before the payment date exceeds the minimum initial premium.

Subject to the limitations below, additional premiums may be paid at any time during the Insured's lifetime up to attained age 121 as long as the contract is not in default beyond the grace period. A premium may be paid at our Home Office or to any of our authorized representatives. We will give a signed receipt upon request. The minimum premium we will accept is shown on a contract data page. We have the right to refuse to accept a premium payment that would in our opinion cause this contract to fail to qualify as life insurance under applicable tax law.

We will refund the excess of any premium payment made over the maximum amount that could be paid without disqualifying the policy as life insurance under Section 7702 of the Internal Revenue Code. However, the premium shall not be refunded if it is necessary to continue insurance coverage. We also have the right to refuse to accept any payment that increases the death benefit by more than it increases the contract fund.

While a loan exists, we will treat the amounts you pay as premiums unless you submit to us a written request that they be treated as loan repayments.

Net Premium Amount

The net premium amount is the portion of each premium you pay that we add to the contract fund. It is equal to the premium paid minus the adjustments to premium payments shown on a contract data page.

Crediting the Initial Premium Payment

If we receive the first premium payment on or before the contract date, we will credit the net premium amount to the contract fund on the contract date.

If we receive the first premium payment after the contract date, we will credit the net premium amount to the contract fund on the date we receive your payment.

CONTRACT FUND

When you make your first premium payment, the net premium amount, less any charges due on or before that day, becomes your contract fund. Amounts are added to and subtracted from the contract fund as shown under Adjustments to the Contract Fund in the contract data pages. The contract fund is used to pay charges under this contract and will determine, in part, whether this contract will remain in force or go into default. The contract fund is also used to determine your loan and surrender values, the amount you may withdraw, and the death benefit. Additional amounts credited to the contract fund are nonforfeitable after crediting except indirectly due to surrender charges.

Cash Value

The cash value at any time is the contract fund less any surrender charge. We show the maximum surrender charge in the Schedule of Maximum Surrender Charges.

Net Cash Value

The net cash value at any time is the cash value less any contract debt. If the contract is in default, the net cash value is zero.

Net Amount at Risk

The net amount at risk is used to determine the cost of insurance as described under Adjustments to the Contract Fund. It is equal to the death benefit (see Death Benefit) minus the contract fund. For the purpose of computing the net amount at risk, if the contract fund is less than zero we will consider it to be zero.

Deductions From the Contract Fund

Charges and withdrawals deducted from the contract are described under Adjustments to the Contract Fund, Decrease in Basic Insurance Amount, Cost of Insurance, Changing the Type of Death Benefit, and Withdrawals.

DEFAULT

Excess Contract Debt Default

If contract debt ever grows to be equal to or more than the cash value, the contract will have excess contract debt and will be in default.

Cash Value Default

On each monthly date, we will determine the cash value. If the cash value is greater than zero and the contract has no excess contract debt, the contract will remain in force until the next monthly date. If the cash value is zero or less, the contract is in default unless it remains in force under a No-Lapse Guarantee.

Notice of Default

If the contract is in default, we will mail you a notice stating the amount we will need to keep the contract in force. That amount will equal a premium which we estimate will keep the contract in force for three months from the date of default. We grant a 61-day grace period from the date we mail the initial notice to pay this amount. The contract will remain in force during this period. If that amount is not paid to us or postmarked by the end of the 61-day grace period, the contract will end and have no value. At least 30 days prior to termination of coverage, we will send another notice to your last known address, reiterating the amount you must pay to bring the policy out of default. We will also send a notice to any assignee of record at least 30 days prior to termination of coverage.

REINSTATEMENT

If this contract ends without value, as described under Default, you may reinstate it. The following conditions must be satisfied:

1. The contract must not have been in default for more than 5 years.
2. You must prove to us that the Insured is insurable for the contract.
3. You must pay us a charge equal to: (a) an amount, if any, required to bring the net cash value to zero on the date the contract went into default, plus (b) any deductions required during the grace period following the date of default, plus (c) the excess of loan interest charged over loan interest credited during the grace period, plus (d) a premium that we estimate will be sufficient after deduction of the charges shown under Adjustments to Premium Payments to cover deductions from the contract fund for three monthly dates starting on the date of reinstatement.
4. Any existing contract debt on the date of default will be canceled and will not be reinstated. The amount of any existing contract debt on the date of default will not be included in the contract fund after reinstatement.

The date of reinstatement will be the date we approve your request. We will deduct all required charges from your payment and put the balance in your contract fund. If we approve the reinstatement, we will credit the contract fund with a refund of that part of any surrender charge deducted at the time of default which would have been charged if the contract were surrendered immediately after reinstatement.

SURRENDER

You may surrender this contract for its net cash value (see Contract Fund). To do so, you must ask us in a form that meets our needs. We may require you to send us the contract.

We will usually pay any net cash value within seven days after we receive your request and the contract (if we require it) at our Home Office. But we have the right to postpone paying it for up to six months.

After the grace period and within thirty days after an anniversary, the net cash value will not be less than the net cash value on that anniversary adjusted for any loan you take out or pay back during those thirty days.

WITHDRAWALS

You may make withdrawals from the contract subject to all these conditions and the paragraph that follows:

1. You must ask for the withdrawal in a form that meets our needs.
2. The contract fund less any surrender charge and less any contract debt after withdrawal may not be less than or equal to zero after deducting (a) any charges associated with the withdrawal and (b) an amount that we estimate will be sufficient to cover the contract fund deductions for two monthly dates following the date of withdrawal.
3. You may not withdraw less than the minimum amount shown under Contract Limitations.
4. The basic insurance amount after withdrawals must be at least equal to the minimum basic insurance amount shown under Contract Limitations.

Any amount withdrawn may not be repaid except as a premium subject to charges.

Effect on Contract Fund

On the date we approve your request, we will reduce your contract fund by the withdrawal amount and the charges listed under Adjustments to the Contract Fund.

We may charge an administrative fee as stated under Adjustments to the Contract Fund.

Effect on Basic Insurance Amount

If you have a Type B death benefit, withdrawals will not affect the basic insurance amount.

If you have a Type A death benefit and the withdrawal would cause the net amount at risk (see Contract Fund) to increase, we will reduce the basic insurance amount and, consequently, your death benefit to offset this increase. The reduction in the basic insurance amount will never be more than the withdrawal amount. If we reduce the basic insurance amount, we will recompute the contract's charges, values, and limitations. We will send you new contract data pages showing these changes. We may also deduct a surrender charge from the contract fund as described in the Decrease In Basic Insurance Amount provision.

We will usually pay any withdrawal amount within seven days after we receive your request at our Home Office, but we have the right to postpone paying it for up to six months.

LOANS

Subject to the requirements of this provision, you may at any time borrow any amount up to the current loan value less any existing contract debt.

Loan Value

If the contract is not in default, the loan value at any time is equal to the cash value. If the contract is in default, it has no loan value.

Contract Debt

Contract debt at any time means the loan on the contract at that time, plus the interest we have charged that is not yet due and that we have not yet added to the loan.

Loan Requirements

For us to approve a loan, the following requirements must be met: you must assign this contract to us as sole security for the loan, the Insured must be living, and the resulting contract debt must not be more than the loan value.

If there is already contract debt when you borrow from us, we will add the new amount you borrow to that debt.

Interest Charge

We will charge interest daily on any loan. Interest is due on each contract anniversary, or when the loan is paid back, whichever comes first. If interest is not paid when due, we will increase the loan amount by any unpaid interest. Except as stated below, we charge interest at an effective annual rate shown under Loan Interest Rate in the contract data pages.

Preferred Loans

On and after the 10th contract anniversary, all new and existing loans will be considered to be preferred loans. Preferred loans are charged interest at an effective annual rate shown under Preferred Loan Interest Rate in the contract data pages.

Effect on Contract Fund

When you take a loan, the amount of the loan continues to be a part of the contract fund and is credited with interest as described in the contract data pages.

Postponement of Loans

We reserve the right to postpone paying your loan for up to six months, except for any loan made to pay premiums due on any contracts you have with us.

GENERAL PROVISIONS

Conformity with Interstate Insurance Product Regulation Commission Standards

The provisions of this contract were approved and issued under the authority of the Interstate Insurance Product Regulation Commission. Any provision of the policy that on the provision's effective date is in conflict with the applicable Interstate Insurance Product Regulation Commission standards for this product type in effect as of the provision's effective date of Commission policy approval will hereby be amended to conform to the applicable Interstate Insurance Product Regulation Commission standards in effect as of the provision's effective date of Commission policy approval.

Annual Report

Once each contract year we will send you, without charge, a report. It will show: the current death benefit; the amount of the contract fund, if any, at the beginning and at the end of the current report period; the net cash value; any contract debt and the interest rate we are charging; premiums paid, interest credited, charges deducted, and withdrawals taken since the last report. The report will include the beginning and end dates of the current report, and may also show any other data that may be required where this contract is delivered. The annual report will indicate if the projected contract fund (assuming guaranteed interest and charges) will not be sufficient to maintain insurance in force until the end of the next reporting period unless further premium payments are made. You may also request an illustrative report once each contract year at no cost. We may charge a fee of up to \$25 for providing additional illustrative reports.

Payment of Death Claim

If we settle this contract in one sum as a death claim we will usually pay the proceeds within seven days after we receive at our Home Office proof of the Insured's death and any other information we need to pay the claim.

Currency

Any money we pay, or that is paid to us, must be in United States currency. Any amount we owe will be payable at our Corporate Office.

Misstatement of Age or Sex

If the Insured's stated age and/or sex (if applicable) are not correct, we will change each benefit and any amount to be paid to what the most recent deductions from the contract fund would have provided at the Insured's correct age and/or sex (if applicable).

Assignment

You may request an assignment of your contract by sending us a request in a form that meets our needs. We may ask you to send us the contract to be endorsed. We will not be deemed to know of an assignment unless we receive it, or a copy of it, at our Home Office. If we receive your request in a form that meets our needs, and the contract if we ask for it, we will file and record the assignment at our Home Office, and unless a different future effective date is specified by you, it will take effect on the date you signed the request. We are not obliged to see that an assignment is valid or sufficient. Any rights created by your request will not apply to any payments we have made or actions we have taken before the assignment was received and recorded at our Home Office. If you request an effective date after the date we have received and recorded your request, any rights created by your request will not apply to any payments we have made or actions we have taken prior to your chosen effective date. This contract may not be assigned if such assignment would violate any federal, state, or local law or regulation prohibiting sex distinct rates for insurance (if applicable).

Change in Plan

You may be able to have this contract changed to another plan of life insurance. Any change may be made only if we consent, and will be subject to conditions and charges that are then determined.

Elements Subject to Change

Subject to any guarantees shown in the contract data pages, we have the right to set and to change from time to time the following elements of the policy: (a) the charge for sales expenses and the premium-based administrative charge that are deducted from each premium paid, (b) the monthly insurance rates used to compute the charge for the cost of insurance, the monthly charges for administrative expenses, and any charges for riders and other administrative charges that may be deducted from the contract fund; and (c) the rate of any excess interest credit. We will not change any of the contract charges more frequently than once per year and we will not change the rate of any excess interest more frequently than once per month.

Any setting of or changes to any contract element described above will consider one or more factors such as, but not limited to, mortality, persistency, policy funding, net amount at risk, expenses, taxes, and investment earnings and profit. Changes will be based on our future expectations with respect to any one or more of the factors we use to determine such changes. Any changes in contract elements will be on a class basis as we determine. All changes will be determined only prospectively.

Non-participating

This contract will not share in our profits or surplus earnings. We will pay no dividends on it.

Applicable Tax Law

This contract has been designed to satisfy the definition of life insurance for Federal income tax purposes under Section 7702 of the Internal Revenue Code of 1986, as amended. We reserve the right, however, to decline any change we determine would cause this contract to fail to qualify as life insurance under the applicable tax law. This includes changing the basic insurance amount, withdrawals, and changing the type of death benefit. We also have the right to change this contract, to require additional premium payments, or to make distributions from this contract to the extent necessary to continue to qualify this contract as life insurance. Finally, we reserve the right to take whatever action is necessary to prevent the contract from becoming a modified endowment contract under Section 7702A of the Internal Revenue Code of 1986 unless you have otherwise indicated to us in writing that you want a modified endowment contract.

Age 121

We discontinue the monthly charges from the contract fund on the first contract anniversary on or following the Insured's 121st birthday. You may continue the contract after that anniversary and it will then continue to operate as described in its provisions (including the Death Benefit and Contract Fund provisions), although you may not make any premium payments except for amounts required to keep the policy in force under the grace period, and no monthly charges will be deducted from the contract fund. Loans, loan repayments, and withdrawals can continue to be made after age 121. Cash value default may not occur on or following such anniversary. Excess contract debt default may occur if contract debt ever grows to be equal to or more than the cash value (See Default).

The contract may not qualify as life insurance under Federal tax law after the Insured has attained age 100 and may be subject to adverse tax consequences. A tax advisor should be consulted before you choose to continue the contract after the Insured reaches age 100.

BASIS OF COMPUTATION

Mortality Basis and Interest Rate

We compute maximum monthly insurance rates using:

1. for issue ages 18 and above, the Commissioners 2017 Standard Ordinary Smoker and Nonsmoker Ultimate Mortality Tables (for issue ages less than 18, we will use the Commissioners 2017 Standard Ordinary Composite Mortality Table through attained age 17 and the Commissioners 2017 Standard Ordinary Nonsmoker Ultimate Mortality Table thereafter); 100% male rates are used for Unisex contracts;
2. the issue age, sex (if applicable), smoker and nonsmoker status, and rating class of the Insured and the length of time since the contract date;
3. age last birthday; and
4. an effective interest rate of 2% a year.

Minimum Legal Values

The cash surrender values provided by this contract are at least as large as those set by the National Association of Insurance Commissioners Universal Life Insurance Regulation (model #585). We have given the Interstate Insurance Product Regulation Commission a detailed statement of how we compute values and benefits.

SETTLEMENT OPTIONS

Options Described

You may choose to have the proceeds (that is, any death benefit or any amount payable upon surrender of the contract) paid in a single sum or under one of the optional modes of settlement described below.

If the person who is to receive the proceeds of this contract wishes to take advantage of one of these optional modes, we will furnish, on request, details of the options we describe below or any others we may have available at the time the proceeds become payable.

Any annuity benefits, at the time they commence, will not be less than those that would be provided by the application of the proceeds to purchase a single consideration immediate annuity contract at purchase rates offered by the Company at the time to the same class of annuitants, whether the annuity benefits are payable in fixed or variable amounts or both, if the Company offers a single consideration annuity contract at the time to the same class of annuitants.

Option 1 (Installments for a Fixed Period)

We will make equal payments for up to 25 years. The Option 1 Table shows the minimum amounts we will pay.

Option 2 (Life Income)

We will make equal monthly payments for as long as the person on whose life the settlement is based lives, with payments certain for 120 months. The Option 2 Table shows the minimum amounts we will pay. But, we must have proof of the date of birth of the person on whose life the settlement is based.

Option 3 (Interest Payment)

We will hold an amount at interest. We will pay the interest annually, semi-annually, quarterly, or monthly.

Option 4 (Installments of a Fixed Amount)

We will make equal annual, semi-annual, quarterly, or monthly payments for as long as the available proceeds provide.

Option 5 (Non-Participating Income)

We will make payments like those of any annuity we then regularly issue that: (1) is based on United States currency; (2) is bought by a single sum; (3) does not provide for dividends; and (4) does not normally provide for deferral of the first payment. Each payment will be at least equal to what we would pay under that kind of annuity with its first payment due on its contract date. If a life income is chosen, we must have proof of the date of birth of any person on whose life the option is based. Option 5 cannot be chosen more than 30 days before the due date of the first payment.

Interest Rate

Payments under Options 1 and 4 will be calculated assuming an effective interest rate of at least 0.75% a year for periods less than 10 years and 1.5% a year for periods between 10 and 25 years. Payments under Option 3 will be calculated assuming an effective interest rate of at least 0.5% a year.

For Option 2 we use the Annuity 2000 Mortality Table at 3% interest. The mortality rates used from this table are the ones for an age that is two years younger than the age of the person who is to receive the proceeds of this contract.

We may include more interest.

SETTLEMENT OPTIONS TABLES

(This page intentionally left blank.)

Individual Flexible Premium Universal Life Insurance Policy. Insurance payable only upon death. Cash values reflect premium payments, interest credited to the contract fund, and charges. Non-participating.

RIDER TO PROVIDE LAPSE PROTECTION

On any monthly date after the contract date, when the contract would otherwise be in default (see Default), the contract will remain in force until the next monthly date if the no-lapse guarantee value is greater than zero and there is no excess contract debt. If the no-lapse guarantee value is zero or less, or there is excess contract debt, the contract is in default.

The no-lapse guarantee value, no-lapse contract fund, no-lapse charge for sales expenses, no-lapse cost of insurance, no-lapse net amount at risk, and no-lapse death benefit (described below) are reference values only and are not used in the determination of values and benefits under this contract. They are used only to determine if the contract is in default.

No-Lapse Guarantee Value

The no-lapse guarantee value is equal to the no-lapse contract fund, less any contract debt. If the contract is reinstated, the amount of any existing contract debt on the date of default will not be included in the no-lapse contract fund.

No-Lapse Contract Fund

When you make your first premium payment, the no-lapse net premium amount, less any no-lapse charges due on or before that day, becomes your no-lapse contract fund. Beginning on the contract date, amounts are added to and subtracted from the no-lapse contract fund as shown under No-Lapse Adjustments to the No-Lapse Contract Fund.

No-Lapse Charge for Sales Expenses

We subtract a no-lapse charge for sales expenses from each premium paid. The premium allocation amounts and the initial and ultimate rates are shown in the No-Lapse Charge For Sales Expenses Rate Table. For any premium we receive in the 60-day period preceding a contract anniversary on which the initial or ultimate rates decrease, we will subtract a no-lapse charge for sales expenses no greater than the amount we would subtract if that premium were received on the contract anniversary.

To determine the amount deducted from each premium, we perform the following steps:

1. We determine any premium amount already paid during the current contract year. (This amount may be zero.)
2. We subtract the step 1 amount from the premium allocation amount on the date we receive your current premium. If the result is less than zero, we consider it to be zero.
3. If the current premium amount is less than or equal to the step 2 amount, the entire premium amount is multiplied by the initial rate to determine the no-lapse charge for sales expenses for that premium. If the current premium amount is greater than the step 2 amount, we (a) multiply the step 2 amount by the initial rate, and (b) multiply the difference between the submitted premium and the step 2 amount by the ultimate rate. The total of (a) and (b) is the no-lapse charge for sales expenses for that premium.

No-Lapse Cost of Insurance

On each monthly date, we will deduct a charge for the no-lapse cost of insurance from the no-lapse contract fund. To determine this charge, we use the following method:

We determine the no-lapse cost of insurance rate using the monthly rate shown under the Table of No-Lapse Monthly Insurance Rates per \$1,000 of No-Lapse Net Amount at Risk for the appropriate contract year.

We multiply that rate by the no-lapse net amount at risk divided by \$1,000 to compute the charge for the no-lapse cost of insurance.

No-Lapse Net Amount at Risk

The no-lapse net amount at risk is equal to the no-lapse death benefit minus the no-lapse contract fund.

No-Lapse Death Benefit

This contract has a Type A, Type B, or Type C death benefit. We show the type of death benefit that applies to this contract under Type of Death Benefit.

If this contract has a Type A death benefit, the no-lapse death benefit is equal to the greater of (1) the basic insurance amount, and (2) the no-lapse contract fund before deduction of any no-lapse monthly charges due on that date, multiplied by the attained age factor that applies.

If this contract has a Type B death benefit, the no-lapse death benefit is equal to the greater of (1) the basic insurance amount plus the no-lapse contract fund before deduction of any no-lapse monthly charges due on that date, and (2) the no-lapse contract fund before deduction of any no-lapse monthly charges due on that date, multiplied by the attained age factor that applies.

If this contract has a Type C death benefit, the no-lapse death benefit on any date is equal to the greater of (1) and (2) where: (1) is the basic insurance amount plus the lesser of (a) the total premiums paid minus total withdrawals from this contract, and (b) the no-lapse contract fund before deduction of any monthly charge due on that date plus the product of the Type C Limiting Amount multiplied by the Type C Death Benefit Factor, both found in the Contract Limitations section of the contract data pages; and (2) is the no-lapse contract fund before deduction of any monthly charges due on that date, multiplied by the attained age factor that applies. For the purpose of determining the Type C no-lapse death benefit, the total premiums paid will not include any charge to reinstate this contract as described under Reinstatement.

Total Disability Benefit

This contract may have a rider for the payment of a net premium amount benefit upon the Insured's total disability. If it does, this benefit will be listed on a contract data page and a copy of the rider will be included in this contract. On each monthly date benefits are paid under this rider, we will credit the no-lapse contract fund with a no-lapse net premium amount equal to the total of the monthly deductions from the no-lapse contract fund on that monthly date.

Termination

This rider will end on the earliest of:

- 1. the end of the last day of the grace period if the contract is in default;
- 2. the date the contract is surrendered for its net cash value; and
- 3. the date the contract ends for any other reason.

This rider is attached to and made part of the contract on the contract date. The rider provisions apply in lieu of any policy provisions to the contrary.

Pruco Life Insurance Company,

By []

Secretary

LAPSE PROTECTION RIDER DATA**No-Lapse Adjustments to Premium Payments**

From each premium paid we will:

subtract a no-lapse administrative charge of 2.5% of the premium paid.

subtract a no-lapse charge for sales expenses as described under No-Lapse Charge for Sales Expenses.

The remainder of the premium is the no-lapse net premium amount.

No-Lapse Adjustments to the No-Lapse Contract Fund

On the Contract Date the no-lapse contract fund is equal to the no-lapse net premium amount credited on that date, minus any of the charges described below which may be due on that date.

On each day after the contract date, we will adjust the no-lapse contract fund by:

adding any no-lapse net premium amounts.

adding no-lapse interest on that portion of the no-lapse contract fund in excess of the amount of any loan as follows:

Contract Year(s)	Effective Annual Rate of No-Lapse Interest
[1]	[0.000% (0.00000000% a day)]
[2 - 50]	[3.300% (0.00889552% a day)]
[51-55]	[2.000% (0.00542552% a day)]
[56-66]	[1.000% (0.00272616% a day)]
[67] and later	[0.000% (0.00000000% a day)]

adding no-lapse interest on that portion of the no-lapse contract fund equal to the amount of any loan at an effective annual rate of 3% (0.00809863% a day).

subtracting any withdrawals.

And on each monthly date, we will adjust the no-lapse contract fund by:

subtracting a monthly no-lapse charge for administrative expenses of:
[\$0.16] per \$1,000 of the basic insurance amount plus \$10.00;
changing on [AUG 1, 2025] to [\$0.00] per \$1,000 of the basic insurance amount plus \$10.00 thereafter.

subtracting a monthly no-lapse charge for the no-lapse cost of insurance (see No-Lapse Cost of Insurance).

END OF RIDER DATA

LAPSE PROTECTION RIDER DATA**No-Lapse Adjustments to Premium Payments**

From each premium paid we will:

subtract a no-lapse administrative charge of 2.5% of the premium paid.

subtract a no-lapse charge for sales expenses as described under No-Lapse Charge for Sales Expenses.

The remainder of the premium is the no-lapse net premium amount.

No-Lapse Adjustments to the No-Lapse Contract Fund

On the Contract Date the no-lapse contract fund is equal to the no-lapse net premium amount credited on that date, minus any of the charges described below which may be due on that date.

On each day after the contract date, we will adjust the no-lapse contract fund by:

adding any no-lapse net premium amounts.

adding no-lapse interest on that portion of the no-lapse contract fund in excess of the amount of any loan as follows:

Contract Year(s)	Effective Annual Rate of No-Lapse Interest
[1]	[0.000% (0.00000000% a day)]
[2 - 50]	[3.300% (0.00889552% a day)]
[51-55]	[2.000% (0.00542552% a day)]
[56-66]	[1.000% (0.00272616% a day)]
[67] and later	[0.000% (0.00000000% a day)]

adding no-lapse interest on that portion of the no-lapse contract fund equal to the amount of any loan at an effective annual rate of 3% (0.00809863% a day).

subtracting any withdrawals.

And on each monthly date, we will adjust the no-lapse contract fund by:

subtracting a monthly no-lapse charge for administrative expenses of:
[\$0.16] per \$1,000 of the basic insurance amount plus \$10.00;
changing on [AUG 1, 2025] to [\$0.00] per \$1,000 of the basic insurance amount plus \$10.00 thereafter.

subtracting a monthly no-lapse charge for the no-lapse cost of insurance (see No-Lapse Cost of Insurance).

END OF RIDER DATA

RIDER FOR INSURED'S ACCIDENTAL DEATH BENEFIT

This benefit is a part of this contract only if it is listed on a contract data page.

- Benefit** Subject to all the provisions of this benefit and of the rest of this contract, we will pay the amount of this benefit that we show on a contract data page for the Insured's accidental loss of life.
- Payment of Benefit** We will include any payment under this benefit in the death benefit of this contract.
- Conditions** Both of these conditions must be met: (1) We must receive due proof that the Insured's death was the direct result, independent of all other causes, of accidental bodily injury that occurred on or after the contract date. (2) The death must occur (a) no more than 90 days after the injury; (b) while the contract is in force; and (c) before the contract anniversary on or after the Insured's 100th birthday.
- Exclusions** We will not pay a benefit under this rider for death caused or contributed to by: (1) suicide or attempted suicide while sane or insane; or (2) infirmity or disease of mind or body or treatment for it; or (3) any infection other than one caused by an accidental cut or wound.
- Even if death is caused by accidental bodily injury, we will not pay a benefit for it under this rider if it is caused or contributed to by: (1) service in the armed forces of any country at war; or (2) war or any act of war; or (3) travel by, or descent from, any aircraft if the Insured had any duties or acted in any capacity other than as a passenger at any time during the flight. But we will ignore (3) if all these statements are true of the aircraft: (a) It has fixed wings and a permitted gross takeoff weight of at least 75,000 pounds. (b) It is operated by an air carrier that is certificated under the laws of the United States or Canada to carry passengers to or from places in those countries. (c) It is not being operated for any armed forces for training or other purposes. As used here, the word "aircraft" includes rocket craft or any other vehicle for flight in or beyond the earth's atmosphere. The word "war" means declared or undeclared war and includes resistance to armed aggression.
- Benefit Charges** The monthly charge for this benefit is deducted on each monthly date from the contract fund. The amount of that charge is stated under Adjustments to the Contract Fund in the contract data pages.
- Termination** This benefit will end on the earliest of:
1. the end of the last day of the grace period if the contract is in default;
 2. the date the contract is surrendered for its net cash value;
 3. the end of the day before the first contract anniversary on or after the Insured's 100th birthday; and
 4. the date the contract ends for any other reason.

Further, if you ask us in a form that meets our needs, we will cancel this benefit as of the first monthly date on or after the date we receive your request. Monthly charges due then and later will be reduced accordingly.

This Supplementary Benefit rider is attached to this contract on the Contract Date.

Pruco Life Insurance Company,

By  **SPECIMEN**
Secretary

RIDER TO PROVIDE ACCELERATION OF DEATH BENEFIT

Exercise of an accelerated benefit option under this rider will cause a reduction in, or elimination of, the contract's death benefit, cash value, and loan value. Premiums or charges needed to keep the policy in force will also be reduced based on the reduced death benefit.

Benefits under this rider are intended to receive favorable tax treatment under the Internal Revenue Code Section 101 (g)(1). Accelerated benefit payments due to chronic illness are subject to limits imposed by the federal government and any amounts received in excess of these limits are includible in gross income. The rider is not intended to be a qualified long-term care insurance contract under section 7702B of the Internal Revenue Code nor is it intended to eliminate the need for insurance of these types. Any benefit received under this rider may impact the recipient's eligibility for Medicaid or other governmental benefits. In some circumstances, receipt of accelerated benefits paid under the rider may be taxable as income. We do not provide tax advice. Before electing an accelerated benefit, you should seek the help of a professional tax advisor for assistance with any questions you may have.

RIDER BENEFIT

This rider provides for an acceleration of the death benefit if the Insured is chronically ill or terminally ill. Subject to the provisions of this rider and the rest of the policy, we will make the payments described below if all of the conditions for eligibility have been met. The payment of the accelerated death benefit is not conditioned on the receipt of long-term care or medical services, and there are no restrictions or limitations on the use of the accelerated death benefit proceeds.

DEFINITIONS

Where this rider uses terms found in the policy, unless otherwise defined in this rider the terms will have the same meaning as in the policy. The following additional definitions apply to the rider:

Accelerated Benefit - the advance payment of some or all of the death proceeds payable under a life insurance policy when certain eligibility criteria are met.

Activities of Daily Living include the following activities:

1. **Bathing** – washing oneself by sponge bath or in either a tub or shower, including the task of getting into or out of the tub or shower.
2. **Continence** – the ability to maintain control of bowel or bladder function or, when unable to maintain control of bowel or bladder function, the ability to perform associated personal hygiene, including caring for a catheter or colostomy bag.
3. **Dressing** – putting on and taking off all items of clothing and any necessary braces, fasteners or artificial limbs.
4. **Eating** – feeding oneself by getting food into the body from a receptacle, such as a plate, cup, or table or by feeding tube or intravenously.
5. **Toileting** – getting to and from the toilet, getting on and off the toilet, and performing associated personal hygiene.
6. **Transferring** – the ability to move into or out of a bed, chair or wheelchair.

Benefit Payment – the periodic or lump sum payment of the accelerated benefit as described in this rider.

Benefit Year – a period of twelve months that begins on the monthly date on or following the date all conditions for eligibility have been satisfied. Subsequent benefit years will begin no earlier than the end of the current benefit year.

Benefit Size Discount Factor – a discount factor applied to the monthly charge on policies with high death benefits. The initial benefit size discount factor can be found in the contract data pages of the policy.

Chronically Ill – the Insured has been certified by a licensed health care practitioner as:

1. being unable to perform (without substantial assistance from another individual) at least two activities of daily living for a period of at least 90 days due to a loss of functional capacity, or
2. requiring substantial supervision for protection from threats to health and safety due to severe cognitive impairment.

Elimination Period – a period of 90 consecutive days after which you become eligible to receive accelerated benefit payments if all conditions for eligibility are met and we have approved the claim. The elimination period begins when we receive written certification that the Insured is chronically ill. The elimination period does not apply to terminal illness claims.

Initial Daily Benefit Limit - the IRS Per Diem limitation in effect on the contract date.

Insured – the person named as the Insured on the first page of the policy. He or she need not be the owner.

Licensed Health Care Practitioner – a physician (as defined in section 1861(r)(1) of the Social Security Act), or any registered nurse, licensed social worker, or other individual whom the United States Secretary of the Treasury may prescribe by regulation. The licensed health care practitioner must be acting within the scope of his/her license when providing a certification that the Insured is chronically ill and may not be the Insured, the policyowner, or a family member of the policyowner or Insured.

Licensed Physician – a physician (as defined in section 1861(r)(1) of the Social Security Act). The licensed physician must be acting within the scope of his/her license when providing a certification that the Insured is terminally ill and may not be the Insured, the policyowner, or a family member of the policyowner or Insured.

Lifetime Benefit Amount – the maximum amount that can be accelerated during the lifetime of the Insured under the Chronic Illness Option of this rider. The lifetime benefit amount is determined when the initial benefit year begins.

Monthly Benefit Percent – a factor used in the calculation of the Maximum Monthly Benefit Payment. It is set at issue and will not change. The Monthly Benefit Percent can be found in the contract data pages.

Maximum Monthly Benefit Payment – the maximum amount that may be paid to you on a monthly basis once a claim has been approved. This payment amount will be recalculated at the beginning of every benefit year.

Monthly Date – the contract date and the same date as the contract date in each later month.

Per Diem Limitation – a maximum allowable amount declared annually by the Internal Revenue Service for chronic illness payments under section 7702B of the Internal Revenue Code.

Recertification – a signed statement completed by a licensed health care practitioner, at your or the Insured's expense, certifying that the Insured is chronically ill as defined in this rider. The written recertification must include due proof of the Insured's chronic illness. Recertification must be received each year in order for you to continue receiving benefit payments under the Chronic Illness Option beyond a benefit year. The recertification will be effective as of the start of the new benefit year.

Reduction Factor – equals 1 minus the quotient of the gross chronic illness benefit payment amount divided by the death benefit prior to payment.

Severe Cognitive Impairment – a loss or deterioration in intellectual capacity that is (a) comparable to (and includes) Alzheimer's disease and similar forms of irreversible dementia, and (b) measured by clinical evidence and standardized tests that reliably measure impairment in the individual's (i) short-term or long-term memory, (ii) orientation as to people, places, or time, and (iii) deductive or abstract reasoning.

Substantial Assistance – hands-on assistance and standby assistance. Hands-on assistance means the physical assistance of another person without which the individual would be unable to perform the activity of daily living. Standby assistance means the presence of another person within arm's reach of the individual that is necessary to prevent, by physical intervention, injury to the individual while the individual is performing the activity of daily living.

Substantial Supervision – continual supervision by another person that is necessary to protect the severely cognitively impaired individual from threats to health or safety.

Terminally Ill – the Insured has a medical condition that is reasonably expected to result in the Insured's death within 6 months or less.

Written Certification – for terminal illness, a signed statement completed by a licensed physician, at your or the Insured's expense, certifying that the Insured is terminally ill as defined in this rider. For chronic illness, a signed statement completed by a licensed health care practitioner, at your or the Insured's expense, certifying that the Insured is chronically ill as defined in this rider. The written certification must also include due proof of the Insured's terminal illness or chronic illness. Certification for each chronic illness claim will be effective as of the first day of the benefit year.

ENTIRE CONTRACT AND CONTRACT CHANGES

The policy to which this rider is attached and any attached copy of this rider and other riders, endorsements and applications, including an application requesting a change, form the entire contract. No agent has the authority to change the contract or to waive any of its provisions.

INCONTESTABILITY

We shall not contest this rider after it has been in force during the lifetime of the insured for two years from its date of issue, and it may only be contested based on a statement made in the application for this rider and the policy to which it is attached, if the statement is attached to the contract. The statement upon which the contest is made shall be material to the risk accepted or the hazard assumed by us.

TERMINAL ILLNESS OPTION

Conditions for Eligibility

You are eligible to accelerate all or part of the policy's death benefit under the Terminal Illness Option when all of the following conditions have been met:

1. The policy must be in force and the Insured must be living;
2. We must receive due proof of the Insured's terminal illness that includes written certification from a licensed physician that the Insured is terminally ill;
3. We must receive authorization from the Insured to obtain copies of any relevant medical records that we require.

Benefit Payment

You may choose to receive a single lump sum benefit payment as an acceleration of the entire death benefit, or you may choose a one-time payment of a partial amount. We reserve the right to set a minimum of no more than \$50,000 on the amount of the death benefit you may accelerate under the Terminal Illness Option.

If you choose to accelerate all or part of the death benefit and the eligibility conditions have been met, we will make a benefit payment equaling:

1. The present value of the accelerated benefit assuming the Insured's remaining life expectancy and a discount factor, less
2. Any due and unpaid premiums, including the premium for the month in which an accelerated benefit is approved, less
3. A processing charge that will not exceed \$150.

The discount factor we will use for determining the present value of the accelerated benefit will not exceed the greater of:

1. The yield on 90-day Federal Treasury bills as of the date of payment; and
2. The maximum statutory adjustable policy loan interest rate as of the date of payment.

We will make this determination based on information current as of the time we approve your request for accelerated benefits.

Payment of the accelerated death benefit is due immediately upon receipt of due written proof of eligibility. We will make a partial or full payment under the Terminal Illness Option when we receive written certification that the Insured is terminally ill and we have approved the claim (see Notice and Proof of Claim). If there is an outstanding loan at the time the benefit payment is made, a portion of the payment will be used to reduce the loan in the same proportion as the reduction in the death benefit.

Payment will be made to the policyowner or the policyowner's estate while the Insured is living unless otherwise designated. If the Insured dies after the claim has been made but before we make the payment, we will cancel the claim and pay the policy death benefit to the beneficiary(ies) designated in the policy. If the Insured dies after a partial payment has been made, we will deduct the amount already accelerated from the death benefit and pay the remaining amount to the beneficiary(ies).

Effect of Terminal Illness Benefit on Policy

If you accelerate all of the available death benefit, the policy and all other benefits under the policy based on the Insured's life will end. If you accelerate part of the death benefit, the policy and other benefits remain in force as described below. After the partial acceleration, you may make one additional full acceleration of the death benefit.

If you accelerate only a part of the death benefit, the remaining death benefit must be no less than \$25,000. The policy will stay in force and the death benefit will be reduced. Policy values and the amount of insurance will be reduced in the same proportion as the reduction in the death benefit. Premiums or charges needed to keep the policy in force will be reduced. The new premiums or charges will be the ones that would apply if the policy had been issued at the reduced amount and the Insured's issue age. A portion of the payment will be used to reduce any contract debt in the same proportion as the reduction in the death benefit.

Once you have exercised the Terminal Illness Option, whether you have accelerated all or only a part of the death benefit, you will no longer be eligible for the Chronic Illness Option. If you are receiving benefit payments under the Chronic Illness Option when you choose to exercise the Terminal Illness Option, any benefit payments you may be receiving under the Chronic Illness Option will end. If you have been receiving benefit payments under the Chronic Illness Option, the death benefit amount that we use to determine your payment under the Terminal Illness Option will be the reduced death benefit as described under Effect of Chronic Illness Benefit on Policy.

Effect of Terminal Illness Benefit on Other Riders

After a partial acceleration of the death benefit has been made, if the contract includes the Rider To Provide Lapse Protection, that rider will continue in force. The no-lapse contract fund will be reduced proportionately based on the reduction in the death benefit. Monthly charges will continue to be deducted from the no-lapse contract fund, but will be reduced based on the reduction of the death benefit amount (see Effect of Terminal Illness Benefit on Policy).

If the contract includes a rider for Level Term Insurance Benefit on Dependent Children that rider will stay in effect after a partial acceleration.

Any accidental death benefit rider on the contract will not be affected by the payment of a partial accelerated benefit. After a partial acceleration of the death benefit has been made, any other riders included will remain in force.

If you accelerate all of the death benefit, any rider for Level Term Insurance Benefit on Dependent Children in the contract will become paid up. Any accidental death benefit rider on the contract and any riders based on the Insured's life will end.

CHRONIC ILLNESS OPTION

Conditions for Eligibility

You are eligible to receive an accelerated death benefit under the Chronic Illness Option when the following conditions have been met:

1. The policy must be in force and the Insured must be living;
2. You must not have received a benefit payment under the Terminal Illness Option;
3. We must receive due proof of the Insured's chronic illness that includes written certification from a licensed health care practitioner that the Insured is chronically ill;
4. The elimination period must be satisfied unless waived (see Waiver of Elimination Period);
5. We must receive authorization from the Insured to obtain copies of any relevant medical records that we require.

We have the right to complete, at our discretion and expense, a personal interview with and assessment of the Insured and/or to have the Insured examined by a licensed health care practitioner of our choice, while a claim is pending or during a benefit period to confirm due proof of the Insured's chronic illness. We may also contact the Insured's licensed health care practitioner for confirmation of continued chronic illness. If there is a difference in opinion between the Insured's licensed health care practitioner and ours, eligibility will be determined by a third medical opinion provided by a licensed health care practitioner who is mutually agreed upon by the Insured and the Company.

Waiver of Elimination Period

The elimination period will be waived by us if the following conditions have been met:

1. The licensed health care practitioner certifies that the Insured is chronically ill and not expected to recover from the chronic illness during his/her lifetime; and
2. All other conditions of eligibility have been met and we approve the claim for benefits.

Benefit Payments

You may choose to receive a benefit payment each month, or you may choose to receive an annual payment for each benefit year. The total of the benefits payable for all contract years is up to the lifetime benefit amount (see Lifetime Benefit Amount).

If the benefit payments will, over time, cause the total payments to exceed the lifetime benefit amount, we will reduce the amount of the final payment so that the total payments under the rider equal the lifetime benefit amount (see Monthly Benefit Payment and Annual Payment).

When Payments Begin: Subject to receipt of due written proof of eligibility including satisfaction of the elimination period, unless waived (see Waiver of Elimination Period), we will begin benefit payments on the monthly date on or following the date we approve the claim. The first benefit payment will include benefits payable retroactive to the monthly date on or following the date all conditions for eligibility were satisfied. You must provide evidence that all the eligibility requirements are met prior to every benefit year (see Conditions for Eligibility, Notice and Proof of Claim, and Recertification).

If a monthly date falls on a non-business day, the benefit payment will be made on the next following business day.

Subsequent benefit payments will be payable as follows provided all conditions for eligibility are met:

1. Each monthly benefit payment in a benefit year will be payable on each monthly date following the date of the first benefit payment; and
2. Annual benefit payments will be paid on the monthly date at the beginning of each subsequent benefit year following the date of the first benefit payment.

If the policy is in default but not past the grace period at the time of claim, the first benefit payment will be reduced by the amount needed to bring the policy out of default (see Default). If the amount needed to bring the policy out of default is more than the amount of the first benefit payment net of the amount allocated to reduce any policy loan, the first benefit payment will be increased to an amount that will bring the policy out of default.

If there is an outstanding loan on the policy, a portion of each benefit payment will be used to reduce the loan on a pro-rata basis. If at any time while chronic illness benefits are being paid, contract debt exceeds the cash value of the policy, the amount of that excess will be deducted from the net benefits paid. If no benefits are payable during that month, or the excess contract debt exceeds the benefit payment, the contract will be in default and a payment will be required to keep the contract in force (see Default).

Payments will be made to the policyowner or the policyowner's estate while the Insured is living unless otherwise designated. If the Insured dies after the claim has been made, but before we begin making payments, we will cancel the claim and pay the policy death benefit to the beneficiary(ies) designated in the policy. If the Insured dies while payments are being made, we will deduct the amounts already accelerated from the death benefit and pay the remaining amount to the beneficiary(ies).

When Payments End: Benefit payments will be made until the earliest of:

1. The date you request in writing that we discontinue the benefit payments;
2. The end of the benefit year after the eligibility requirements are no longer met;
3. The end of the benefit year unless a recertification is received for the following year;
4. The date the lifetime benefit amount is exhausted;
5. The date a claim is approved under the Terminal Illness Option; and
6. Any of the events under Termination occur.

The policy may still be in force when payments end. The death benefit and policy values will have been reduced as a result of any payments made prior to the date we stop payments or the rider terminates.

If you request that we discontinue monthly benefit payments under the Chronic Illness Option, and at a later date, within the same benefit year, want to resume the payments for the remainder of the benefit year, you may do so.

Lifetime Benefit Amount: The lifetime benefit amount is the maximum amount of life insurance that you can accelerate under the Chronic Illness Option of this rider. It is equal to the policy's death benefit at the beginning of the initial benefit year and will not increase after benefit payments begin. Any transactions you make that increase or decrease the death benefit of the policy prior to your initial claim will similarly affect the lifetime benefit amount. The initial lifetime benefit amount can be found in the contract data pages.

When you receive monthly benefit payments the remaining lifetime benefit amount that can be accelerated will be reduced each month by the amount of the monthly benefit payment. An annual benefit payment will reduce the remaining amount by twelve times the monthly benefit payment amount for that benefit year. The reductions in the remaining lifetime benefit amount that reflect deduction of payments will be made prior to any pro-rata adjustment for loan repayment (see Effect of Chronic Illness Benefit on Policy). Any decrease to the basic insurance amount of the policy occurring after benefits have been paid under the Chronic Illness Option of this rider will also reduce the lifetime benefit amount and the remaining benefits available under the Chronic Illness Option of this rider.

Monthly Benefit Payment: At the beginning of each benefit year, we will calculate the maximum monthly benefit payment for that year as described below. At the beginning of each subsequent benefit year, we will recalculate the maximum monthly payment amount.

Subject to a minimum payment of \$500, if you choose to receive payments monthly, you may notify us prior to the beginning of each benefit year that you choose to receive less than the maximum monthly benefit payment amount. The monthly benefit payment amount may not be changed during the benefit year.

We determine the maximum monthly benefit payment amount each benefit year. The maximum monthly benefit payment is equal to the lowest of:

1. The lifetime benefit amount multiplied by the monthly benefit percent;
2. The per diem limitation in effect at the start date of the current benefit year times 30; and
3. The initial daily benefit limit compounded annually on each anniversary at the daily benefit limit compound rate times 30.

The monthly benefit percent, initial daily benefit limit, and the daily benefit limit compound rate can be found in the contract data pages in the policy.

Annual Payment: You may choose to receive the benefit payments on an annual basis. The annual benefit payment will equal the sum of the present value of each maximum monthly benefit payment for the benefit year. The payment amount will be discounted prior to any pro-rata adjustment for loan repayment (see Effect of Chronic Illness Benefit on Policy). The interest rate used to determine present value will be the one in effect on the benefit year start date and will not exceed the greater of:

1. The yield on 90-day Federal Treasury bills as of the date of payment; and
2. The maximum statutory adjustable policy loan interest rate as of the date of payment.

Effect of Chronic Illness Benefit on Policy

After we approve a claim and before benefit payments are made, the type of death benefit for the policy must be a Type A death benefit (see Death Benefit Provisions in your contract). The type of death benefit is shown in a contract data page. If your policy has a Type B or Type C death benefit, before benefit payments are made, the policy will be changed to a Type A death benefit. Once you have exercised the Chronic Illness Option, the policy's death benefit type must remain Type A, even if benefit payments are discontinued for any reason.

If your policy is a variable life insurance policy, the following will also apply:

1. At the time you make your claim, you must authorize transfer of all amounts from the variable investment options to a non-variable option(s). Funds must remain in the non-variable option(s) while your claim is reviewed and during a benefit year. Fund transfers to variable investment options will not be allowed.
2. After the end of a benefit year, if benefits are discontinued, or if the rider is terminated, if your policy is still in force, you must notify us if you wish to transfer funds from the non-variable option(s) to your choice of variable investment options (see Transfers). At this time, the initial transfer of funds from the non-variable option(s) to variable investment option(s) will not be counted as one of the 12 transfers allowed by your policy for that year.

While benefit payments are being made, the policy will remain in force in accordance with its terms. Monthly charges will be waived while benefit payments are being made, but if you have an outstanding loan, interest on the loan will continue to accrue (see Lapse Protection). You may continue to make premium payments.

The following contract values will be reduced proportionately by multiplying each by the reduction factor:

1. Basic insurance amount.
2. Contract fund.
3. Alternate contract fund (if applicable).
4. Surrender charges.
5. No-lapse contract fund (if applicable).
6. Outstanding loan.

You may choose to repay any contract debt before benefit payments begin. If there is an outstanding loan at the beginning of a benefit year or you take a loan during a benefit year, a portion of each benefit payment will be used to reduce the loan on a pro-rata basis. While you are receiving benefit payments, you may not take a withdrawal or decrease the policy's basic insurance amount.

If you choose to exercise the Terminal Illness Option, whether for a partial or a full acceleration, after you have begun receiving benefit payments under the Chronic Illness Option any benefit payments you may be receiving under the Chronic Illness Option will end. We will use the reduced basic insurance amount as described above to determine the accelerated payment amount under the Terminal Illness Option.

Effect of Chronic Illness Benefit on Other Riders

If the policy includes the Rider To Provide Lapse Protection, that rider will continue in force while benefit payments are being made. Monthly no-lapse charges will also be waived while benefit payments are being made and after you have received 25 monthly benefit payments or the annual equivalent (see Lapse Protection).

If the policy includes a rider for Level Term Insurance Benefit on Dependent Children, that rider will stay in effect.

While there is a death benefit remaining, any accidental death benefit rider on the policy will not be affected by the payment of the accelerated benefit. Any other riders included will remain in force.

After the full death benefit has been accelerated, any rider for Level Term Insurance Benefit on Dependent Children will become paid up, and any accidental death benefit and any riders based on the Insured's life will end.

NOTICE AND PROOF OF CLAIM

Notice of Claim

To submit a claim for a benefit payment under this rider, notice of claim may be given to us at any time.

Claim Forms

Within 15 days of receiving notice of claim, we will provide you with any forms you will need to provide due proof of the Insured's terminal or chronic illness. If such forms are not provided within 15 days after your request, it is considered that you have complied with the claim requirements if you submit written proof covering the occurrence, the character and the extent of the occurrence for which the claim is made.

Recertification for Chronic Illness Option

Due written proof that the Insured is chronically ill and recertification by a licensed health care practitioner is required every year for benefit payments to continue under the Chronic Illness Option. Approximately ninety days prior to the end of each benefit year, we will send you a request for written recertification and proof of the Insured's chronic illness. For continuous monthly benefits you must send us the information we ask for prior to the start of the next benefit year to satisfy us that the conditions for eligibility continue to be met. The new benefit year will begin following the end date of the prior benefit year.

If recertification is received within 90 days after the end of a preceding benefit year, the new benefit year will begin on the monthly date on or following the date on which we receive the recertification. Any request for benefits under this rider received more than 90 days after the end of the current benefit year will be treated as a new claim and the new benefit year will begin on the monthly date on or following the date on which all conditions of eligibility are met, including satisfaction of the elimination period unless waived (see Waiver of Elimination Period), and we approve the claim.

CHARGE FOR RIDER BENEFITS

On each monthly date, we will deduct a charge for this rider from the contract fund and the alternate contract fund (if applicable). The monthly charge is equal to the product of the factors A, B, and C, where:

- A. Equals the cost of insurance rate per \$1,000 for this rider;
- B. Equals the benefit size discount factor; and
- C. Equals the net amount at risk (see Contract Fund in your policy) divided by \$1,000

The maximum cost of insurance for this rider and the benefit size discount factor can be found in the contract data pages.

If the policy includes the Rider To Provide Lapse Protection the monthly charge for this rider will be deducted from the no-lapse contract fund. The monthly charge is equal to the product of the factors A, B, and C, where:

- A. Equals the no-lapse cost of insurance rate per \$1,000 for this rider;
- B. Equals the benefit size discount factor; and
- C. Equals the no-lapse amount at risk divided by \$1,000

The no-lapse cost of insurance rates can be found in the data pages for the Rider to Provide Lapse Protection.

When we make a benefit payment under the Terminal Illness Option, we will deduct a processing charge of up to \$150, and the monthly charges for this rider will end. When we make a benefit payment under the Chronic Illness Option, the monthly charges for this rider will end.

LAPSE PROTECTION

While you are receiving benefit payments under the Chronic Illness Option, we will waive all other monthly charges that would normally be deducted from the contract fund and alternate contract fund, if applicable, and no-lapse contract fund, if applicable, in order to prevent the policy from going into default. We will continue to waive monthly charges until you notify us to discontinue benefit payments, the Insured fails to recertify, or this rider terminates. Once you have received 25 monthly benefit payments or the annual equivalent, all monthly charges for this contract will be permanently waived as long as this rider is in effect, even if benefit payments are no longer being made. However, if you request that we remove this rider, choose to discontinue benefit payments, or if the Insured no longer has a chronic illness or fails to recertify before you have received 25 monthly benefit payments or the annual equivalent, deductions and monthly charges from the contract fund and alternate contract fund, if applicable, and no-lapse contract fund, if applicable, will resume and you may need to make additional payments into the policy to protect it from lapse.

REINSTATEMENT

If this rider is in effect when the policy has lapsed, this rider may be reinstated when the policy is reinstated. The reinstatement will be subject to all the terms and conditions of reinstatement in the policy to which this rider is attached.

WRITTEN CONSENT

Before the options in this rider can be exercised, you must also provide the consent, in writing, of any assignee and irrevocable beneficiary(ies) on the policy authorizing the acceleration of the policy's death benefit.

STATEMENT OF EFFECT OF PAYMENT OF ACCELERATED BENEFIT

At time of claim, we will advise you in writing of the amount of benefit available to you under the option you have chosen and the effect on the policy at that time, including details about the effect the acceleration of death benefits will have on the policy values, such as cash value, death benefit, charges, and policy loans.

REPORT OF ACCELERATED BENEFITS PAID

We will provide a written report of the amount of accelerated benefits and the effect of those payments on the remaining amount of benefits available to you for acceleration under the option, the policy death benefit, policy charges, cash value and contract fund value.

TERMINATION

This rider will end on the earliest of:

1. The date the grace period ends if the policy is in default;
2. The date you request in writing that we remove the rider;
3. The date a payment of a full accelerated death benefit is made due to terminal illness;
4. The date of the Insured's death; or
5. The date the policy ends under the Right to Cancel, Death Benefit, Surrender, or Change in Plan provisions.

Termination of this rider shall not prejudice the payment of benefits for any eligible terminal or chronic illness that occurred while this rider was in force. If a claim for benefits is being made after termination of the rider, we will require evidence that the Insured was chronically ill or terminally ill prior to the termination of the rider. If you request that we remove this rider, all benefits and restrictions under this rider will cease.

This rider is attached to and made part of the contract on the contract date. The rider provisions apply in lieu of any policy provision to the contrary.

Pruco Life Insurance Company,

By 

Secretary

RIDER FOR LEVEL TERM INSURANCE BENEFIT ON DEPENDENT CHILDREN

This benefit is a part of this contract only if it is listed on a contract data page. If any provision of the policy conflicts with this rider, the provisions of this rider will apply.

Benefit

We will pay the amount of term insurance under this benefit if we receive due proof that a dependent child died while this contract was in force on a premium-paying basis and before the term insurance provided by the benefit on his or her life ends. But our payment is subject to all the provisions of this benefit and of the rest of this contract.

The phrase dependent child means the Insured's child, stepchild, or legally adopted child who: (1) has reached the 14th day after his or her date of birth; (2) has not reached the first contract anniversary on or after his or her 25th birthday; and either (3) is named in the application for this contract and on the date of the application has not reached his or her 18th birthday; or (4) is acquired by the Insured after the date of the application but before the child's 18th birthday.

We show the amount of term insurance under this benefit on a contract data page. The insurance on each dependent child's life will end on the earliest of: (1) the end of the day before the first contract anniversary on or after the child's 25th birthday; (2) the end of the day before the first contract anniversary on or after the Insured's 75th birthday; and (3) the end of the last day before the contract date of any other contract to which the insurance on the dependent child is converted or changed.

Benefit Charges

The monthly charge for this benefit is deducted each month from the contract fund. The amount of that charge is shown under Adjustments to the Contract Fund. Monthly charges for this benefit stop on the earlier of the date of the Insured's death, and the first contract anniversary on or after the Insured's 75th birthday.

PAID-UP INSURANCE

Paid-up Insurance on a Dependent Child

If the Insured dies while this contract is in force and not in default past the last day of the grace period, any term insurance provided by this benefit on a dependent child's life will become paid-up term insurance. While this paid-up insurance is in effect, the contract will remain in force. The paid-up insurance will have cash values but no loan value.

If this benefit becomes paid-up, it may be surrendered for its net cash value. This will be the net value on the date of surrender of the paid-up insurance. But, within 30 days after a contract anniversary, the net cash value will not be less than it was on that anniversary. To compute this net cash value, we use the Commissioners 2017 Standard Ordinary Mortality Table for males and females (100% male rates are used for unisex contracts). We use continuous functions based on age last birthday. We use an effective interest rate of 3.5% a year.

We will usually pay any cash value within seven days after we receive your request and the contract (if we require it) at our Home Office. But we have the right to postpone paying it for up to six months.

CONVERSION OF INSURANCE ON A DEPENDENT CHILD

Right to Convert

The insurance on each dependent child may be converted under this rider to a new contract of life insurance. The insurance on each child's life may be converted only once, and once converted, all coverage under this rider on such child will end. Except as we state in the next paragraph, a conversion may be made only on (a) the day the insurance ends as described in the last paragraph under Benefit above, and (b) each contract anniversary on or immediately following his or her 18th, 22nd, and 25th birthdays provided that such anniversary occurs before the insurance ends. It will not be necessary to prove that the child is insurable.

Conditions

The right to convert to a new contract is subject to these conditions: (1) The insurance on the child must be converted while the contract is in force and not in default past the last day of the grace period. (2) The amount of the new contract must meet the minimum as we describe under Contract Specifications. (3) We must receive a written application for the new contract no later than the date the insurance may be converted.

The new contract will not take effect unless the premium for it is paid while the child is living and within 31 days after its contract date. If the premium is paid as we state, it will be deemed that the insurance under the new contract took effect on its contract date.

Premium Credit

When the insurance on a dependent child is converted, we will allow a premium credit on the first premium for the new contract. The credit is equal to the lesser of \$1.00 for each full \$1,000 of the term insurance under this benefit and \$1.00 for each full \$1,000 of the new contract's basic amount of insurance.

Contract Date

The date of the new contract will be the day after the date the insurance on the dependent child is converted.

Contract Specifications

The new contract will be in the standard, non-smoking rating class. We will set the issue age and the premiums for the new contract in accordance with our regular rules in use on its contract date.

Except as we state in the next sentence, the new contract may be any life policy we or the Prudential Insurance Company of America regularly issue on its contract date for the standard, non-smoking rating class, requested amount, issue age, and sex (if applicable). It may not be: one that insures anyone in addition to the child; one that includes or provides for term insurance, other than extended insurance; or one with any benefit other than the basic insurance benefit and the waiver of monthly charges benefit we refer to below.

The basic amount of the new contract may be any amount as long as it is at least \$25,000 and not more than five times the amount of insurance on the child's life under this benefit. If the amount requested is smaller than the smallest amount we would regularly issue on the requested plan, we will make available at least one policy for a minimum basic amount of \$25,000.

If asked, we will include a benefit for waiving monthly charges in the event of the disability of the person insured if we would include a rider benefit we refer to below in other contracts like the new one.

To be eligible for the waiver of monthly charges benefit, the disability must start on or after the new contract date. And we will not waive any monthly charges under the new contract unless it has a benefit for waiving monthly charges in the event of disability, even if we have waived monthly charges under this contract.

Any benefit for waiving monthly charges in the new contract will be the same one with the same provisions that we put in other contracts like it on the new contract date. In any of these paragraphs, when we refer to other contracts, we mean contracts we would regularly issue on the same plan as the new contract and for the standard, non-smoking rating class, requested amount, issue age and sex (if applicable).

The Incontestability and Suicide Exclusion provisions of the new contract will be measured from the issue date of the original policy.

MISCELLANEOUS PROVISIONS

Beneficiary

The word beneficiary where we use it in this contract without qualification means the beneficiary for insurance payable upon the death of the Insured.

On the contract date, the following two statements apply, unless we issue the contract with an endorsement that states otherwise: (1) The beneficiary for insurance payable upon the death of a dependent child will be the Insured if living, otherwise the beneficiary for this insurance named in the application. (2) If no such beneficiary is living when insurance under this benefit becomes payable, we will make the payment in one sum to the estate of the later to die of the Insured and such beneficiary.

You may designate or change a beneficiary for insurance payable upon the death of a dependent child by sending us a request in a form that meets our needs. We may ask you to send us the contract to be endorsed. If we receive your request, and the contract if we ask for it, we will file and record the change at our Home Office and, unless a different future effective date is specified by you, it will take effect on the date you signed the request. Any rights created by your request will not apply to any payment(s) we have made or actions we have taken before your request was received and recorded. If you request an effective date after the date we have received and recorded your request, any rights created by your request will not apply to any payments we have made or actions we have taken prior to your chosen effective date. Any beneficiary's interest is subject to the rights of any assignee we know of. When a beneficiary is designated, any relationship shown is to the Insured, unless otherwise stated.

Reinstatement

If this contract is reinstated, it will not include the insurance that we provide under this benefit on the dependent children unless you prove to us on or within 15 days after the date of reinstatement that each child who is to be insured is insurable for the benefit. If you do not submit such proof for any child, the benefit may be reinstated if all the other conditions are met to reinstate the contract. Any child for whom proof is not submitted, however, will not be insured under the reinstated benefit, and you may be required to send the contract to us for endorsement.

Incontestability

Except for non-payment of premium, we will not contest this benefit with respect to the insurance on any dependent child's life after it has been in force during the child's lifetime for two years from the issue date. We will not contest this rider for statements made in an application for reinstatement after the policy has been in force and the Insured has been alive for two years from the date of reinstatement.

Termination of Benefit

This benefit will end on the earliest of:

1. the end of the last day of the grace period if the contract is in default;
2. the end of the day before the first contract anniversary on or after the Insured's 75th birthday;
3. the date the contract is surrendered for its net cash value if it has one or the paid-up insurance, if any, under the benefit is surrendered; and
4. the date the contract ends for any other reason.

Further, if you ask us in the premium period in a form that meets our needs, we will cancel the benefit as of the first monthly date on or after the date we receive your request. Monthly charges due then and later will be reduced accordingly.

This Supplementary Benefit rider attached to and made part of this contract on the Contract Date

Pruco Life Insurance Company,

By  [Amy M. Wolterman]

Secretary

RIDER FOR PAYMENT OF AN ADDITIONAL AMOUNT UPON SURRENDER

Benefit

An Additional Amount may be payable to you upon surrender of this contract for its net cash value if all the conditions of this rider are satisfied.

We determine the Additional Amount at the time we receive your request for surrender in the following manner:

We compute the result of (a) times (b) where (a) is the surrender charge (shown under the Schedule of Maximum Surrender Charges) and (b) is the Additional Amount Factor for the basic insurance amount in effect at the time we receive your request for surrender.

If the net cash value is greater than or equal to zero, the Additional Amount is the amount computed above.

If the net cash value is not greater than or equal to zero, the Additional Amount is the sum of the net cash value and the amount computed above.

The guaranteed minimum Additional Amount Factors are shown in the Table of Additional Amount Factors. At any time upon request, we will tell you the current Additional Amount Factor. We will notify you in the annual report of the Additional Amount payable upon surrender as of that date.

Factors Subject To Change

Additional Amount Factors may change from time to time. In deciding whether to change any Additional Amount Factors, we will consider one or more factors such as, but not limited to, mortality, persistency, policy funding, net amount at risk, expenses, taxes and investment earnings and profit. Changes will be based on our future expectations with respect to any one or more of the factors we use to determine such changes. Any changes in the Additional Amount Factors will be on a class basis as we determine. All changes will be determined only prospectively; that is, we will not recoup prior losses or distribute prior gains by means of these changes.

Benefit Charges

A single charge for this benefit is deducted from the contract fund on the contract date. The amount of that charge is shown under Adjustments to the Contract Fund in the contract data pages.

Death Benefit

If this contract has a Type A death benefit, the death benefit on any date is equal to the greater of: (1) the basic insurance amount, and (2) the contract fund before deduction of any monthly charges due on that date plus the result of (a) minus (b) where (a) is any Additional Amount described in this rider and (b) is the current maximum surrender charge (see the Contract Fund provision of the contract), multiplied by the attained age factor that applies. If the result of (a) minus (b) is less than zero, we consider it to be zero.

If this contract has a Type B death benefit, the death benefit on any date is equal to the greater of: (1) the basic insurance amount plus the contract fund before deduction of any monthly charges due on that date, and (2) the contract fund before deduction of any monthly charges due on that date plus the result of (a) minus (b) where (a) is any Additional Amount described in this rider and (b) is the current maximum surrender charge (see the Contract Fund provision of the contract), multiplied by the attained age factor that applies. If the result of (a) minus (b) is less than zero, we consider it to be zero.

Conditions

1. This contract must not be in default.
2. You must ask for the surrender in writing in a form that meets our needs.
3. The surrender is not the subject of an exchange pursuant to Section 1035 of the United States Internal Revenue Code.

Termination

This rider will end on the earliest of:

1. the end of the grace period if the contract is in default and the premium required to bring it out of default has not been paid;
2. the date the contract is surrendered for its net cash value; and
3. the date the contract ends for any other reason.

This rider is attached to and made part of the contract on the contract date. The rider provisions apply in lieu of any policy provisions to the contrary.

Pruco Life Insurance Company,

By  [Amy M. Wolman]

Secretary

SPECIMEN

SETTLEMENT OPTIONS TO PROVIDE ACCELERATION OF DEATH BENEFITS

Subject to all the provisions of this rider and of the rest of the contract, we will make the payments described below if the Insured is terminally ill or is confined to a nursing home.

This rider is non-participating. Any dividend we pay under this contract will be the same as the one we pay under a contract that is like this one in all other respects but that does not have this rider.

Definitions Convertible Proceeds . —The proceeds we would pay under this contract at the death of the Insured, less any contract debt and any term insurance that comes from supplementary benefits (except level term insurance riders still in the conversion period and for which we charge a premium).

Benefit Base . —The value we will use to determine the monthly benefit we will pay under the terminal illness option or the nursing home option. It will be computed based on: (1) the amount of convertible proceeds you place under the option; and (2) a reduced life expectancy. When we compute the life expectancy and the benefit base, we will use our assumptions. We may change those assumptions from time to time. We will consider, among other things, the Insured's age and sex and which of the options is being applied for. We will also consider, if they apply:

1. expected future premiums;
2. future dividends at the scale in effect when we make the computation;
3. continuation of any reduction in guaranteed charges;
4. continuation of the current rate of any excess interest credited on contract values; and
5. a processing charge of up to \$150.

The benefit base for an option will be at least as great as the net cash value of the contract multiplied by the percentage of the convertible proceeds placed under that option.

Eligible Nursing Home .— An institution or special nursing unit of a hospital which meets at least one of the following requirements:

- 1) it is Medicare approved as a provider of skilled nursing care services; or
- 2) it is licensed as a skilled nursing home or as an intermediate care facility by the state in which it is located; or
- 3) it meets all the requirements listed below:
 - a. it is licensed as a nursing home by the state in which it is located;
 - b. its main function is to provide skilled, intermediate, or custodial nursing care;
 - c. it is engaged in providing continuous room and board accommodations to 3 or more persons;
 - d. it is under the supervision of a registered nurse (RN) or licensed practical nurse (LPN);
 - e. it maintains a daily medical record of each patient; and
 - f. it maintains control and records for all medications dispensed.

Institutions which primarily provide residential facilities are not eligible nursing homes.

Terminal Illness Option

To choose this option you must give us evidence that satisfies us that the Insured's life expectancy is 6 months or less; part of that evidence must be a certification by a licensed physician. This option provides equal monthly payments for 6 months. For each \$1,000 of benefit base, each payment will be at least \$168.37; this assumes an annual interest rate of 5%.

If the Insured dies before all the payments have been made, we will pay the beneficiary in one sum. The one sum we pay will be the present value of the payments that remain; we will compute the value based on the interest rate we used to determine those payments.

If you do not want monthly payments, we will pay you the benefit base in one sum if you ask us to.

Nursing Home Option

You may choose this option if: (1) the Insured is confined to an eligible nursing home and has been confined there for all of the preceding six months; and (2) you give us evidence that satisfies us that the Insured is expected to stay in the nursing home until death. Part of that evidence must be a certification by a licensed physician. This option provides level monthly payments for the number of years shown in the table that follows. For each \$1,000 of benefit base, each payment will be at least the minimum amount shown in the table. The table uses an annual interest rate of 5%; we may use a higher rate.

ATTAINED AGE OF INSURED	PAYMENT PERIOD IN YEARS	MINIMUM MONTHLY PAYMENT FOR EACH \$1,000 OF BENEFIT BASE
64 and under	10	\$ 10.50
65 - 67	8	12.56
68 - 70	7	14.02
71 - 73	6	15.99
74 - 77	5	18.74
78 - 81	4	22.89
82 - 86	3	29.80
87 and over	2	43.64

If the Insured dies before all the payments have been made, we will pay the beneficiary in one sum. The one sum we pay will be the present value of the payments that remain; we will compute the value based on the interest rate we used to determine those payments.

If we agree, you may choose a longer payment period than that shown in the table; if you do, monthly payments will be reduced so that the present value of the payments is the same. We will use an interest rate of at least 5%.

We reserve the right to set a maximum monthly benefit that we will pay under this option. If we do so, it will be at least \$ 5,000.

If you do not want monthly payments, we will pay you the benefit base in one sum if you ask us to.

Effect on Contract

The convertible proceeds will be reduced by any amount converted under one of these options.

If you convert only a part of your convertible proceeds, the contract will stay in force and premiums will be reduced. For insurance included in the convertible proceeds, values and the amount of insurance will be reduced in the same proportion as the reduction in convertible proceeds. The new premiums will be the ones that would apply if the contract had been issued at the reduced amount. Insurance not included in the convertible proceeds will not be affected.

If you convert only a part of your convertible proceeds, the convertible proceeds that remain must be at least \$ 25,000.

If you convert all of your convertible proceeds, all other benefits under the contract based on the Insured's life will end. Any insurance under the contract on the life of someone other than the Insured will stay in effect; we will waive all future premiums for that insurance.

Conditions Your right to be paid under one of these options is subject to the following conditions:

1. The contract must be in force other than as extended insurance.
2. You must choose the option in writing in a form that meets our needs.
3. The contract must not be assigned except to us as security for a loan.
4. We reserve the right to set a minimum of no more than \$50,000 on the amount of convertible proceeds you may place under an option.
5. You must send us the contract.
6. The main purpose of life insurance is to meet your estate planning needs. This benefit provides for the accelerated payment of life insurance proceeds. It is not meant to cause you to involuntarily invade proceeds ultimately payable to the named beneficiary. Accelerated death benefits will be made available to you on a voluntary basis only. Therefore:
 - (a) If you are required by law to use this option to meet the claims of creditors, whether in bankruptcy or otherwise, you are not eligible for this benefit.
 - (b) If you are required by a government agency to use this option in order to apply for, obtain, or keep a government benefit or entitlement, you are not eligible for this benefit.

Right to Cancel If you ask us in writing and send us the contract, we will cancel this rider.

**Rider attached to and made part of this contract
on the Contract Date**

Pruco Life Insurance Company,

By 

Secretary

RIDER FOR EXCESS LOAN PROTECTION

This benefit is a part of this contract only if it is listed on a contract data page. This rider does not have any cash or loan values. If any provision of the policy conflicts with this rider, the provisions of this rider will apply.

Rider Benefit

After the rider is exercised, we will waive any monthly charges or unpaid loan interest that would otherwise cause the contract debt to exceed the cash value (see Excess Contract Debt Default). This contract will not enter default (see Default) after the rider is exercised. You may exercise the rider only after all of the conditions stated below are met.

Benefit Charges

When the rider is exercised, we will deduct a one-time charge from the contract fund. The amount of that charge is described under Adjustments to the Contract Fund. There is no charge if the rider is not exercised.

Conditions

Your right to exercise this rider is subject to all of these conditions:

1. Your request to exercise the rider must be dated on or after the later of (a) the fifteenth contract anniversary and (b) the contract anniversary on or after the Insured's 75th birthday. If the contract to which this rider is attached is a survivorship contract, your request to exercise the rider must be dated on or after the later of (a) the fifteenth contract anniversary and (b) the contract anniversary on or after the younger Insured's 75th birthday.
2. Contract debt (see Contract Debt) must be greater than the basic insurance amount.
3. Contract debt must be equal to or greater than 95% of the cash value.
4. There must be sufficient net cash value (cash value less contract debt) to pay the one-time benefit charge.
5. The death benefit qualification test you elected for this contract must be the guideline premium test. This election is made at the time that this contract is issued and may not be changed.
6. This contract must not be a modified endowment contract.
7. Exercising the rider must not cause this contract to become a modified endowment contract or cause this contract to fail to qualify as life insurance under the applicable tax law (see Applicable Tax Law).

Exercising the Rider

At least 31 days before the end of the contract's grace period you will receive a written notice that your contract may be eligible to exercise this rider. If all of the above conditions are satisfied, you may request to exercise the rider by submitting a written request in a form that meets our needs, prior to the end of the 61-day grace period which begins on the date we mail the notice of default. The exercise of the rider will be effective on the monthly date on or after the date we receive your written request at our Home Office. Your request to exercise this rider is irrevocable. Once the rider is exercised you will receive written notification of the changes impacting the contract.

Effect on the Contract

Once the rider is exercised, all of the following apply:

1. You may not make any further withdrawals.
2. You may not make any further changes to the basic insurance amount.
3. You may not make any further premium payments.
4. You may not make any further changes to the type of death benefit.
5. If the contract to which this rider is attached is a variable contract, any amounts in the variable investment options will be transferred to the Fixed Rate Option, and you may not make any further transfers into the variable investment options.
6. Any riders and benefits and their associated charges will terminate.

Effect on the Basic Insurance Amount

On the date the rider is exercised, if the death benefit option is not the Type A option, it will be changed to the Type A option. The basic insurance amount will be set to equal the contract death benefit at that time.

Effect on the Death Benefit

On and after the date the rider is exercised, the death benefit will be the greater of (a) the Type A death benefit (see Death Benefit) and (b) the amount of contract debt multiplied by the attained age factor that applies. The attained age factors are shown in the contract data pages.

Reinstatement

If the policy has lapsed and is reinstated, this rider may be reinstated as part of the policy. The reinstatement will be subject to all the terms and conditions of reinstatement in the policy to which the rider is attached.

Termination

This benefit will end on the earliest of:

1. the end of the grace period if the contract is in default;
2. the contract anniversary immediately following the Insured's 121st birthday or, if the contract to which this rider is attached is a survivorship contract, the contract anniversary immediately following the younger Insured's 121st birthday;
3. the date the contract ends for any other reason.

Rider attached to and made part of this contract on the Contract Date.

Pruco Life Insurance Company,

By  [Amy M. Woleman]

Secretary

RIDER FOR PAYMENT OF NET PREMIUM AMOUNT BENEFIT UPON INSURED'S TOTAL DISABILITY

This benefit is a part of this contract only if it is listed on a contract data page. In the text of this rider, when we use the words this contract, we mean the entire contract of which this rider forms a part. This rider does not have any cash or loan values.

Total Disability Benefit

Subject to the conditions and exceptions stated below, after we have approved a claim, we will pay net premium amounts into the contract fund and alternate contract fund (if applicable) on each monthly date while the Insured is totally disabled.

The amounts of these payments will equal the total of all charges deducted on each monthly date as shown under Adjustments to the Contract Fund.

This is subject to all the provisions of this rider and the rest of this contract.

Total Disability Defined

When we use the terms total disability and totally disabled in this benefit we mean that: (1) until the Insured has stayed totally disabled for two years, the Insured cannot, due to sickness or injury, perform any of the duties of his or her regular occupation; but (2) after the Insured has stayed totally disabled for two years, the Insured cannot, due to sickness or injury, perform any gainful work for which the Insured is reasonably fitted by education, training or experience.

We will regard an Insured as totally disabled, even if working or able to work, if the Insured incurs, during a period in which premiums are eligible to be paid by us as we describe below, one of the following: (1) permanent and complete blindness of both eyes; or (2) physical severance of both hands at or above the wrists or both feet at or above the ankles; or (3) physical severance of one hand at or above the wrist and one foot at or above the ankle.

Net Premium Amounts Eligible to Be Paid by Us

If the Insured becomes totally disabled before the anniversary on which the Insured attains age 60, and that total disability begins: (1) on or after the anniversary on which the Insured attains age 5, if the contract date was before that birthday; or (2) on or after the contract date, if that date was on or after the Insured's 5th birthday, we will make payments under this benefit on each monthly date while the Insured remains totally disabled.

If the Insured becomes totally disabled on or after the anniversary on which the Insured attains age 60, we will only make payments before the first contract anniversary following the Insured's 65th birthday and while the Insured is totally disabled.

If the Insured becomes totally disabled on or after the anniversary on which the Insured attains age 65, we will not make any payments during that period of total disability.

Conditions

We will not pay any premiums into the contract until we approve a claim. Once approved, we will pay into the contract as of each monthly date the net premium amount as described under Total Disability Benefit for monthly dates on and after the onset of total disability and through the date of approval.

Before we will approve a claim, all of these conditions must be met: (1) the Insured must become totally disabled while this contract is in force and not in default past the last day of the grace period; (2) the Insured must be totally disabled for a period of at least six continuous months while living; and (3) we must receive proof of total disability in a form satisfactory to us. Until we approve the claim, charges shall continue to be deducted from the contract fund when due as described under Adjustments to the Contract Fund. If total disability begins during a grace period, sufficient funds will be required to be added to the contract fund to ensure that any overdue monthly deductions can be taken to avoid a lapse of insurance coverage before we approve the claim.

Exceptions

We will not pay any premiums into the contract if the Insured becomes totally disabled from: (1) an injury the Insured causes to himself or herself, on purpose; or (2) sickness or injury due to service on or after the date of this rider in the armed forces of any country(ies) at war. The word war means declared or undeclared war and includes resistance to armed aggression.

Successive Disabilities

Here is what happens if the Insured has at least one payment made by us while totally disabled, then gets well, and then becomes totally disabled again. In this case, we will not apply the six-month continuous disability period that would otherwise be required by Condition (2) and will consider the second period of total disability to be part of the first period unless: (A) the Insured has done gainful work, for which the Insured is reasonably fitted, for at least six months between the periods; or (B) the Insured became totally disabled the second time from an entirely different cause.

If we do not apply the six-month period required by Condition (2), we also will not count the days when there was not total disability as part of the two year period when total disability means the Insured cannot do any of the duties of the Insured's regular occupation.

Notice and Proof of Claim

Notice and proof of any claim should be given to us, if possible, while the Insured is living and totally disabled. We may also require proof at reasonable intervals that the Insured is still totally disabled. During the first two years after we approve the claim, we will not require proof of continued disability more frequently than once every 30 days. After the Insured has been continuously totally disabled for two years, we will not ask for proof of continued total disability more than once a year; and we will require no further proof of continued total disability after the first contract anniversary following the Insured's 65th birthday if the Insured has then been continuously totally disabled for at least five years. As a part of any proof, we have the right to require that the Insured be examined at our expense by doctors of our choice.

Benefit Charges

The monthly charge for this benefit is deducted on each monthly date from the contract fund. The amount of that charge is described under Adjustments to the Contract Fund. If we approve a claim for this benefit, benefit charges will be waived while the Insured is totally disabled.

Premiums Paid During Total Disability

You may make premium payments if you wish, as provided in the Premium Payment section of the contract even when we are making payments under this benefit.

When We Will Stop Paying Net Premium Amounts

We will stop paying net premium amounts if: (1) total disability ends; or (2) we ask for proof that the Insured is totally disabled and we do not receive it by the date requested; or (3) we require that the Insured be examined and the Insured fails to do so. We will also stop paying net premium amounts on and after the contract anniversary on or immediately following the Insured's 121st birthday. If the Insured becomes totally disabled on or after the first contract anniversary on or after the Insured's 60th birthday, we will stop making payments after the contract anniversary following the Insured's 65th birthday.

Termination

This benefit will end on the earliest of:

1. the date we receive a written request from the owner;
2. the end of the grace period if the contract is in default;
3. the end of the day before the anniversary on which the Insured attains age 65 unless the Insured is totally disabled at that time; and
4. the date the contract ends for any other reason.

Rider attached to and made part of this contract on the contract date. The rider provisions apply in lieu of any policy provisions to the contrary.
